**Avellino corneal dystrophy**

**Eponyms:** Folberg corneal dystrophy

**Inheritance:** autosomal dominant

**Semeiological Synthesis:** Ocular disorder, isolated defect. Corneal dystrophy with both lattice and granular histologic features.

**OCULAR DISORDERS**

- corneal defects not including dystrophy
  - isolated ocular defects: corneal dystrophy, isolated defects
  - corneal dystrophy, isolated defect
  - corneal dystrophy, granular
  - corneal dystrophy, lattice
  - eye, motility defects
    - strabismus convergent, esotropia,
    - misalignment of the visual axes of the eyes

**OTHERS**

- inheritance
  - inheritance, autosomal dominant

**PRENATAL-NEONATAL MODIFIED DATA**

- foetal changes
  - foetal changes, recognized by laboratory data
