

**Volume 8**  
**Epitaxy Data of Inorganic and Organic Crystals**

	Title Page, Preface, Authors	
1	Introduction	1
2	Epitaxies of inorganic deposit crystals on inorganic substrate crystals	4
2.1	Elements and alloys	4
2.2	Halogenides	21
2.3	Oxides and hydroxides	45
2.4	Oxygen compounds of the halogens	54
2.5	Sulfur compounds	54
2.6	Compounds of selenium and tellurium	69
2.7	Nitrogen compounds	70
2.8	Phosphor compounds	72
2.9	Compounds of arsenic and antimony	73
2.10	Carbon compounds	74
2.11	Silicium compounds	79
2.12	Boron compounds	97
2.13	Compounds of chromium and molybdenum	97
2.14	Oxygen compound of manganese	98
3	Epitaxies of organic deposit crystals on inorganic substrate crystals	99
3.1	Elements	99
3.2	Halogenides	100
3.3	Oxides and Hydroxides	108
3.4	Chlorate	111
3.5	Sulfur compounds	111
3.6	Nitrates	117
3.7	Carbonates	118
3.8	Silicates	120
4	Epitaxies of inorganic deposit crystals on organic substrate crystals	125
5	Epitaxies of organic deposit crystals on organic substrate crystals	127
6	References	144
7	Index of substances	162
7.1	Formulae index	162
7.2	Index of names of the organic compounds	174
7.3	Index of mineral names	180
