

Landolt-Börnstein
Group II: Molecules and Radicals

Volume 9
Magnetic Properties of Free Radicals

Subvolume D1
Organic Anion Radicals

	Title Page, Preface	
	General introduction (H. FISCHER)	1
12	Semidiones and related species (M. LEHNIG)	5
12.0	Introduction	5
12.1	Semidiones	6
12.2	Thiosemidiones	73
12.3	Semitriones	79
12.4	Anion radicals from aromatic polycarbonyl and -thiocarbonyl compounds and polycarboxylic acids	83
12.5	References for 12	107
13	Semiquinones and related species (K.B. ULMSCHNEIDER, H.B. STEGMANN)	112
13.0	Introduction	112
13.1	Semiquinone anion radicals	113
13.1.1	Carbocycles	113
13.1.2	Naphthosemiquinones	275
13.1.3	Anthrasemiquinones	304
13.1.4	Phenanthrenesemiquinones	318
13.1.5	Semiquinones from other carbocyclic compounds	322
13.2	Semiquinone anions from heterocyclic compounds	334
13.2.1	Nitrogen heterocycles	334
13.2.2	Oxygen heterocycles	343
13.2.3	Sulfur heterocycles	347
13.3	Semiquinone cation radicals	351
13.4	Charge-transfer complexes of quinones	361
13.5	References for 13	367
14	Anion radicals from nitro compounds (A. BERNDT)	376
14.0	Introduction	376
14.1	Nitro compounds without double bonds conjugated with the NO ₂ group	377
14.1.1	Nitroalkanes without heteroatoms (except as substituents of phenyl rings)	377
14.1.2	Nitroalkanes containing fluorine	386
14.1.3	Nitroalkanes containing chlorine	388
14.1.4	Nitroalkanes containing oxygen	390
14.1.5	Nitroalkanes containing sulfur bound to carbon	402
14.1.6	Nitroalkanes containing nitrogen	406
14.1.7	Nitroalkanes containing phosphorus bound to carbon	410
14.1.8	Nitroalkanes containing arsenic	414

14.2	Nitro compounds with double bonds conjugated with the NO ₂ group	414
14.2.1	Nitroalkenes	414
14.2.2	1,1-Dinitroalkenes	420
14.2.3	Acyl nitro compounds	421
14.2.4	Anions from 1,1-dinitroalkanes	421
14.2.5	Anions from dinitro- and trinitrocyclohexadienes	426
14.3	Aromatic mononitro compounds	430
14.4	Aromatic dinitro compounds	609
14.5	Aromatic trinitro compounds	661
14.6	Aromatic tetranitro compounds	668
14.7	References for 14.1 - 14.6	670
15	Anion radicals from nitroso compounds (A. BERNDT)	679
15.0	Introduction	679
15.1	Nitroso compounds without double bonds conjugated with the N = O group	680
15.2	Nitroso compounds with double bonds conjugated with the N = O group	687
15.3	Aromatic nitroso compounds	690
15.4	References for 15	697
15A	Anion radicals from boron compounds (A. BERNDT)	698
15A.0	Introduction	698
15A.1	Anion radicals containing one boron atom	699
15A.2	Anion radicals containing two boron atoms	705
15A.3	References for 15A	706
16	Hydrocarbon anion radicals (M.T. JONES)	707
16.0	Introduction	707
16.1	Cyclic hydrocarbon anion radicals	708
16.1.1	Monocyclic systems	708
16.1.2	Polycyclic systems (condensed)	731
16.1.3	Polycyclic systems (non-condensed)	798
16.1.4	Bridged systems	834
16.1.5	Cyclophanes	838
16.1.6	Triptycenes	842
16.2	Non-aromatic hydrocarbon anion radicals	844
16.3	References for 16.1 and 16.2	850
17	Anion radicals from heterocyclic compounds (L. LUNAZZI, G. PLACUCCI)	857
17.0	Introduction	857
17.1	Nitrogen containing anion radicals	858
17.2	Anion radicals of heterocycles containing O, S, and Se	883
17.3	Anion radicals of heterocycles containing P and Si	895
17.4	Anion radicals of heterocycles containing two or more different heteroatoms	898
17.5	References for 17.1 - 17.4	903
	Index of Substances (See Vol. 9D2)
