

Landolt-Börnstein
Group II: Molecules and Radicals

Volume 17
Magnetic Properties of Free Radicals

Subvolume F
Radicals Centered on Heteroatoms with Z > 7 and Selected Anion Radicals II

Title Page, Preface

General introduction (H. FISCHER) 1

11 Organic radicals centered on other heteroatoms and related radical ions 5
(M. LEHNIG)

11.0 Introductory remarks 5

11.1 Silicon-centered radicals and related radical ions 6

11.2 Germanium-centered radicals and related radical ions 38

11.3 Tin-centered radicals and related radical ions 46

11.4 Lead-centered radicals and related radical ions 53

11.5 Arsenic-centered radicals and related radical ions 55

11.6 Antimony-centered radicals (See Vol. 9C2)

11.7 Boron-centered radicals 60

11.8 Aluminum-centered radicals and related radical ions 62

11.9 Mercury-centered radicals and related radical ions 64

12 Hydrocarbon and substituted hydrocarbon anion radicals (M.T. JONES) 68

12.0 Introduction 68

12.1 Hydrocarbon anion radicals 69

12.2 Substituted hydrocarbon anion radicals 181

13 Anion radicals from heterocyclic compounds (L. LUNAZZI, L. GROSSI) 195

13.0 Introduction 195

13.1 Nitrogen containing anion radicals 196

13.2 Anion radicals of heterocycles containing O and S 211

13.3 Anion radicals of heterocycles containing two different heteroatoms 217

14 Anion radicals from organo-boron compounds (A. BERNDT) 220

14.1 Introduction 220

14.2 Anion radicals containing one boron atom 221

14.3 Anion radicals containing two boron atoms 222

14.4 Anion radicals containing four boron atoms 227

15 Anion radicals from nitro and nitroso compounds (A. BERNDT) 229

15.1 Introduction 229

15.2 Nitro compounds without double bonds conjugated with the NO₂ group 230

15.3 Aromatic mononitro compounds 238

15.4 Aromatic dinitro compounds 294

15.5	Aromatic trinitro compounds	303
15.6	Nitroso compounds	305
	General symbols and abbreviations (H. FISCHER)	312
	Index of Substances (See Vol. 17H)	

Radicals Centered on Heteroatoms with $Z > 7$ and
Selected Anion Radicals II / Heteroatomzentrierte ($Z >$
7) Radikale und ausgewählte Anionradikale II

Berndt, A.; Grossi, L.; Jones, M.T.; Lehnig, M.; Lunazzi, L.
