

	Title Page, Contributors, Preface	
4	Ocean circulation	1
4.1	Equations for oceanic motions (P. MÜLLER, J. WILLEBRAND)	1
4.2	Temperature-salinity characteristics of world ocean waters (E. FAHRBACH, J. MEINCKE)	15
4.2.1	Introduction	15
4.2.2	Formation of surface temperature and salinity characteristics	15
4.2.3	Distribution of temperature and salinity characteristics in the ocean interior	33
4.2.4	Formation of water masses	43
4.2.5	Large-scale distribution of water masses	47
4.2.6	Concluding remark	57
4.2.7	References for 4.2	57
4.3	Chemical tracers in the ocean (W. ROETHER, M. RHEIN)	59
4.3.1	Introduction	59
4.3.2	Available tracers	59
4.3.3	Tracer measurement	61
4.3.4	Tracer geochemistry and boundary conditions	64
4.3.5	Tracer distribution	78
4.3.6	Tracer modeling	101
4.3.7	Outlook	114
4.3.8	Literature	115
4.3.9	References for 4.3	119
4.4	General circulation dynamics (J. WILLEBRAND)	123
4.4.0	List of symbols	123
4.4.1	Introduction	124
4.4.2	Ekman layer	124
4.4.3	Coupling between barotropic and baroclinic flows	126
4.4.4	The wind-driven circulation	128
4.4.5	Thermocline dynamics	135
4.4.6	Inference of circulation patterns from hydrographic data	141
4.4.7	References for 4.4	149
5	Ocean turbulence	151
5.1	Basic features and classification (H. FRANZ)	151
5.1.0	List of symbols	151
5.1.1	Definition of turbulence	153
5.1.2	Main topics of investigation	154

5.1.3	Foundations and methods	157
5.1.4	The equations for turbulent flows and results	169
5.1.5	The spectra of turbulence	184
5.1.6	Instability of laminar flow and generation of turbulence	196
5.1.7	Tableau of marine turbulence	205
5.1.8	References for 5.1	208
5.2	Synoptic-scale variability (P. MÜLLER)	211
5.2.0	List of symbols	211
5.2.1	Introduction	212
5.2.2	Observations	213
5.2.3	Equations of motion	229
5.2.4	Basic mechanisms and processes	242
5.2.5	Numerical models	253
5.2.6	Respective of dynamics	256
5.2.7	References for 5.2	257
5.3	The surface mixed layer (M. HANTEL)	259
5.3.0	List of symbols	259
5.3.1	Qualitative survey of the surface mixed layer	260
5.3.2	Observations of the surface mixed layer	269
5.3.3	Modeling the surface mixed layer	311
5.3.4	References for 5.3	341
5.4	The benthic boundary layer (G. GUST)	345
5.4.0	List of symbols	345
5.4.1	Introduction	346
5.4.3	Observations on natural boundary layer flows	355
5.4.4	Implications of field observations	380
5.4.5	Unusual phenomena in the benthic boundary layer	390
5.4.6	Envoy	391
5.4.7	References for 5.4	392

Oceanography

Fahrbach, E.; Franz, H.; Gust, G.; Hantel, M.; Meincke, J.;

Müller, P.; Rhein, M.; Roether, W.; Willebrand, J.

1989, XIII, 398 p. 297 illus., Hardcover
