|------------------------------------------------------------------------------------------------------------|-----|
| Series Preface                                                                                             | v   |
| Preface                                                                                                    | vii |
| <i>Erica L. Drazen</i>                                                                                     |     |
| Acknowledgments                                                                                            | xv  |
| <br>                                                                                                       |     |
| Chapter 1. The Potential Contributions of Patient Care<br>Information Systems                              | 1   |
| <i>Jane B. Metzger</i>                                                                                     |     |
| Chapter 2. Physicians' and Nurses' Acceptance of Computers                                                 | 31  |
| <i>Erica L. Drazen</i>                                                                                     |     |
| Chapter 3. Physicians' and Nurses' Satisfaction with Patient<br>Care Information Systems: Two Case Studies | 51  |
| <i>Erica L. Drazen</i>                                                                                     |     |
| Chapter 4. Designing Acceptable Patient Care Information<br>Systems                                        | 83  |
| <i>Jane B. Metzger and Jonathan M. Teich</i>                                                               |     |
| Chapter 5. Developing a Patient Care Information<br>Systems Strategy                                       | 133 |
| <i>Mark K. Schneider and William C. Reed</i>                                                               |     |
| Chapter 6. Implementing the Patient Care Information<br>System Strategy                                    | 163 |
| <i>Jami L. Ritter and John P. Glaser</i>                                                                   |     |
| Chapter 7. Redefining the Patient Care Information System                                                  | 187 |
| <i>Jane B. Metzger and Samarjit Marwaha</i>                                                                |     |
| <br>                                                                                                       |     |
| Index                                                                                                      | 213 |

Patient Care Information Systems

Successful Design and Implementation

Drazen, E.L.; Metzger, J.B.; Ritter, J.L.; Schneider, M.K.

1995, XIX, 218 p., Hardcover

ISBN: 978-0-387-94255-1
