

Contents

Keynote Address 1

Measurement Strategies	1
<i>Adele Goldberg</i>	
<i>ParcPlace-Digitalk Inc.</i>	

Keynote Address 2

Will Europe ever Produce and sell Objects?	2
<i>François Bancilhon</i>	
<i>O2 Technology</i>	

Programming Language/Inheritance

Type-Safe Compilation of Covariant Specialization: A Practical Case	3
<i>John Boyland (University of California at Berkeley)</i>	
<i>Giuseppe Castagna (École Normale Supérieure)</i>	

Integrating Subtyping, Matching and Type Quantification : A Practical Perspective	26
<i>Andreas Gawecki, Florian Matthes</i>	
<i>University of Hamburg</i>	

Typed Object-Oriented Functional Programming with Late Binding	48
<i>Zhenyu Qian and Bernd Krieg-Brückner</i>	
<i>University of Bremen</i>	

Applications/Experiences

Large Scale Object-Oriented Software-Development in a Banking Environment - An Experience Report	73
<i>Dirk Bäumer, Rolf Knoll (RWG GmbH)</i>	
<i>Guido Gryczan and Heinz Züllighoven (University of Hamburg)</i>	

An Application Framework for Module Composition Tools	91
<i>Guruduth Banavar (IBM TJ Watson Research Center)</i>	
<i>Gary Lindstrom (University of Utah)</i>	

Automatic Generation of User Interfaces from Data Structure Specifications and Object-Oriented Application Models	114
<i>Vadim Engelson, Peter Fritzson (Linköping University)</i>	
<i>Dag Fritzson (SKF Engineering and Research Centre B.V.)</i>	

Implementation/Dispatching

Eliminating Virtual Function Calls in C++ Programs	142
<i>Gerald Aigner and Urs Hölzle</i>	
<i>University of California, Santa Barbara</i>	
Supporting Explicit Disambiguation of Multi-methods	167
<i>Eric Amiel (NatSoft, Air Center)</i>	
<i>Eric Dujardin (INRIA)</i>	
Towards Alias-Free Pointers	189
<i>Naftaly Minsky</i>	
<i>Rutgers University</i>	

Specifications/Semantics/Inheritance2

Inheritance and Cofree Constructions	210
<i>Bart Jacobs</i>	
<i>CWI, Amsterdam</i>	
(Objects + Concurrency) & Reusability - A Proposal to Circumvent the Inheritance Anomaly	232
<i>Ulrike Lechner, Christian Lengauer, Friederike Nickl (University Passau)</i>	
<i>Martin Wirsing (Ludwig-Maximilians-University Munich)</i>	
Modeling Subobject-Based Inheritance	248
<i>Jonathan G. Rossie, Daniel Friedman (Indiana University)</i>	
<i>Mitchell Wand (Northeastern University)</i>	

Distribution

Parallel Operators	275
<i>Jean-Marc Jézéquel and Jean-Lin Pacherie</i>	
<i>IRISA, Rennes</i>	
An Implementation Method of Migratable Distributed Objects Using an RPC Technique Integrated with Virtual Memory Management ..	295
<i>Kenji Kono, Kazuhiko Kato (University of Tokyo)</i>	
<i>Takashi Masuda (University of Tsukuba)</i>	
Protocol Classes for Designing Reliable Distributed Environments	316
<i>Benoît Garbinato, Pascal Felber and Rachid Guerraoui</i>	
<i>École Polytechnique Fédérale de Lausanne</i>	

Databases

Dynamic Clustering in Object Databases Exploiting Effective Use of Relationships Between Objects	344
<i>Frédérique Bullat and Michel Schneider</i>	
<i>University Blaise Pascal Clermont-Ferrand II</i>	
Conceptual Design of Active Object-Oriented Database Applications using Multi-level Diagrams	366
<i>Mauricio J. V. Silva and C. Robert Carlson</i>	
<i>Illinois Institute of Technology</i>	
Bridging the Gap between C++ and Relational Databases	398
<i>Uwe Hohenstein</i>	
<i>Siemens AG, Munich</i>	

Language Design/OO Modelling

Generalising the BETA Type System	421
<i>Søren Brandt and Jørgen Lindskov Knudsen</i>	
<i>University of Åarhus</i>	
Metaphoric Polymorphism: Taking Code Reuse One Step Further	449
<i>Ran Rinat and Menachem Magidor</i>	
<i>Hebrew University, Jerusalem</i>	
Activities: Abstractions for Collective Behavior	472
<i>Bent Bruun Kristensen (Aalborg University)</i>	
<i>Daniel C. M. May (Monash University)</i>	
Author Index	502

ECOOP '96 - Object-Oriented Programming
10th European Conference, Linz, Austria, July 8-12,
1996. Proceedings
Cointe, P. (Ed.)
1996, XII, 508 p., Softcover
ISBN: 978-3-540-61439-5
