

## Table of Contents

The Construction and Acquisition of Visual Categories .....	1
<i>Tony Belpaeme, Luc Steels, Joris Van Looveren</i>	
Q-learning with Adaptive State Space Construction .....	13
<i>Hajime Murao, Shinzo Kitamura</i>	
Module Based Reinforcement Learning for a Real Robot .....	29
<i>Csaba Szepesvari, Zolt Kalmar, Andras Lorincz</i>	
Analysis and Design of Robot's Behavior: Towards a Methodology .....	46
<i>Yassine Faihe, Jean-Pierre Müller</i>	
Vision Based State Space Construction for Learning Mobile Robots in Multiagent Environments .....	62
<i>Eiji Uchibe, Minoru Asada, Koh Hosoda</i>	
Transmitting Communication Skills Through Imitation in Autonomous Robots .....	79
<i>Aude Billard, Gillian Hayes</i>	
Continual Robot Learning with Constructive Neural Networks .....	95
<i>Axel Grossmann, Riccardo Poli</i>	
Robot Learning and Self-Sufficiency: What the Energy-Level Can Tell us About a Robot's Performance .....	109
<i>Andreas Birk</i>	
Perceptual Grounding in Robots .....	126
<i>Paul Vogt</i>	
A Learning Mobile Robot: Theory, Simulation and Practice .....	142
<i>Nuno Chalmique Chagas, John Hallam</i>	
Learning Complex Robot Behaviours by Evolutionary Computing with Task Decomposition .....	155
<i>Wei-Po Lee, John Hallam, Henrik H. Lund</i>	
Robot Learning Using Gate-Level Evolvable Hardware .....	173
<i>Didier Keymeulen, Kenji Konaka, Masaya Iwata, Yasuo Kuniyoshi, Tetsuya Higuchi</i>	

Learning Robots

6th European Workshop EWLR-6, Brighton, England,

August 1-2, 1997 Proceedings

Birk, A.; Demiris, J. (Eds.)

1998, X, 194 p., Softcover

ISBN: 978-3-540-65480-3
