Olefin Metathesis by Well-Defined Complexes of Molybdenum and Tungsten

R. R. Schrock 1

Ruthenium-Catalyzed Metathesis Reactions in Organic Synthesis

A. Fürstner 37

Ring-Closing Metathesis in the Synthesis of Epothilones and Polyether Natural Products

K.C. Nicolaou, N. P. King, Y. He 73

Catalytic Ring-Closing Metathesis and the Development of Enantioselective Processes

A. H. Hoveyda 105

Enyne Metathesis

M. Mori 133

Cross-Metathesis

Susan E. Gibson (née Thomas), S. P. Keen 155

Recent Advances in ADMET Chemistry

D. Tindall, J.H. Pawlow, and K.B. Wagener 183

Bioactive Polymers

L. L. Kiessling, LE. Strong 199

Alkene Metathesis in Organic Synthesis
