

Table of Contents

Markov Localization for Reliable Robot Navigation and People Detection ...	1
<i>Dieter Fox, Wolfram Burgard and Sebastian Thrun</i>	
Relocalisation by Partial Map Matching	21
<i>Wolfgang D. Rencken, Wendlin Feiten and Raoul Zöllner</i>	
Localization and On-Line Map Building for an Autonomous Mobile Robot .	36
<i>Ewald von Puttkamer, Gerhard Weiss and Thomas Edlinger</i>	
Interactive Learning of World Model Information for a Service Robot	49
<i>Steen Kristensen, Volker Hansen, Sven Horstmann, Jesko Klandt, Konstantin Kondak, Frieder Lohnert and Andreas Stopp</i>	
MAid: A Robotic Wheelchair Operating in Public Environments	68
<i>Erwin Prassler, Jens Scholz, Matthias Strobel and Paolo Fiorini</i>	
Interactive Robot Programming Based on Human Demonstration and Advice	96
<i>Holger Friedrich, Rüdiger Dillmann and Oliver Rogalla</i>	
Towards Smarter Cars	120
<i>Karin Sobottka, Esther Meier, Frank Ade and Horst Bunke</i>	
Active Control of Resolution for Stable Visual Tracking	140
<i>Nicola Ferrier</i>	
Near-Optimal Sensor-Based Navigation in an Environment Cluttered with Simple Shapes	160
<i>Hiroshi Noborio and Kenji Urakawa</i>	
Realistic Environment Models and Their Impact on the Exact Solution of the Motion Planning Problem	180
<i>A. Frank van der Stappen</i>	
Robot Localization Using Polygon Distances	200
<i>Oliver Karch, Hartmut Noltemeier and Thomas Wahl</i>	
On-Line Searching in Simple Polygons	220
<i>Sven Schuierer</i>	
Distributed Algorithms for Carrying a Ladder by Omnidirectional Robots in Near Optimal Time	240
<i>Yuichi Asahiro, Hajime Asama, Satoshi Fujita, Ichiro Suzuki and Masafumi Yamashita</i>	
Modeling and Stability Analysis of the Dynamic Behavior in Load Sharing Systems	255
<i>Paul Levi, Michael Schanz, Viktor Avrutin and Robert Lammert</i>	

Recent Advances in Range Image Segmentation272
