

# Table of Contents

---

## I Methodology

---

Theories of Programming: Top-Down and Bottom-Up and Meeting in the Middle .....	3
<i>C.A.R. Hoare</i>	
A Triptych Software Development Paradigm: Domain, Requirements and Software .....	29
<i>D. Bjørner</i>	
Real-Time Constraints Through the ProCoS Layers .....	61
<i>A.P. Ravn, H. Rischel</i>	
Monotonicity in Calculational Proofs .....	79
<i>D. Gries</i>	

---

## II Programming

---

The Alma Project, or How First-Order Logic Can Help Us in Imperative Programming .....	89
<i>K.R. Apt, A. Schaerf</i>	
Type and Effect Systems .....	114
<i>F. Nielson, H.R. Nielson</i>	

---

## III Automation

---

Proving Theorems About Java-Like Byte Code .....	139
<i>J S. Moore</i>	
Multiple State and Single State Tableaux for Combining Local and Global Model Checking .....	163
<i>A. Biere, E.M. Clarke, Y. Zhu</i>	
On the Existence of Network Invariants for Verifying Parameterized Systems .....	180
<i>P.A. Abdulla, B. Jonsson</i>	

---

## IV Compilation

---

Verification of Compilers .....	201
<i>G. Goos, W. Zimmermann</i>	
Translation Validation: From SIGNAL to C .....	231
<i>A. Pnueli, O. Shtrichman, M. Siegel</i>	
Compilation and Synthesis for Real-Time Embedded Controllers .....	256
<i>M. Fränzle, M. Müller-Olm</i>	
Optimization Under the Perspective of Soundness, Completeness, and Reusability .....	288
<i>J. Knoop, O. Rüthing</i>	

---

## V Application

---

Verification of Automotive Control Units .....	319
<i>T. Bienmüller, J. Bohn, H. Brinkmann, U. Brockmeyer, W. Damm, H. Hungar, P. Jansen</i>	
Correct Real-Time Software for Programmable Logic Controllers .....	342
<i>E.-R. Olderog</i>	
Formal Methods for the International Space Station ISS .....	363
<i>J. Peleska, B. Buth</i>	
METAFrame in Practice: Design of Intelligent Network Services .....	390
<i>B. Steffen, T. Margaria</i>	
Author Index .....	417
