

Table of Contents

Invited Papers

Trust for Electronic Commerce Transactions.....	1
<i>Günther Pernul, Alexander W. Röhm, Gaby Herrmann</i>	
A Family of the ODMG Object Models	14
<i>Suad Alag�</i>	

Regular Papers

Integration

Consistent Handling of Integrity Constraints and Extensional Assertions for Schema Integration.....	31
<i>Can T�rker, Gunter Saake</i>	
Deriving Type Conflicts and Object Cluster Similarities in Database Schemes by an Automatic and Semantic Approach.....	46
<i>Domenico Ursino</i>	

Information Retrieval & Multimedia

A Model for Querying Annotated Documents	61
<i>Fr�d�rique Laforest, Anne Tchounikine</i>	
Word-Based Compression Methods and Indexing for Text Retrieval Systems.....	75
<i>Jiri Dvorsk�, Jaroslav Pokorn�, Vaclav Sn��el</i>	
Processing of Spatiotemporal Queries in Image Databases	85
<i>Theodoros Tzouramanis, Michael Vassilakopoulos, Yannis Manolopoulos</i>	

Transactions

On the Correctness of Virtual Partition Algorithm in a Nested Transaction Environment	98
<i>Sanjay Kumar Madria, S.N. Maheshwari, B. Chandra</i>	
Computing Rules for Detecting Contradictory Transaction Termination Dependencies	113
<i>Kerstin Schwarz, Can T�rker, Gunter Saake</i>	
A New Class Hierarchy Concurrency Control Technique in Object-Oriented Database Systems	128
<i>Woochun Jun</i>	

Index-Structures

The G^r -Tree: The Use of Active Regions in G-Trees 141
Dimitris G. Kapopoulos, Michael Hatzopoulos

S^* -Tree: An Improved S^+ -Tree for Coloured Images 156
Enrico Nardelli, Guido Proietti

Agent Technology

Workflow Management System Using Mobile Agents 168
Zoran Budimac, Mirjana Ivanović, Aleksandar Popović

Data Mining

Pattern-Oriented Hierarchical Clustering 179
Tadeusz Morzy, Marek Wojciechowski, Maciej Zakrzewicz

Data Mining in a Multi-dimensional Environment 191
Holger Günzel, Jens Albrecht, Wolfgang Lehner

Arbiter Meta-learning with Dynamic Selection of Classifiers and Its
Experimental Investigation 205
Alexey Tsymbal, Seppo Puuronen, Vagan Terziyan

Data Modeling

The Notion of ‘Classes of a Path’ in ER Schemas 218
Junkang Feng, Malcolm Crowe

Evaluation of Data Modeling 232
Ronald Maier

Organizational Modeling for Efficient Specification of Information Security
Requirements 247
Jussipekka Leiwo, Chandana Gamage, Yuliang Zheng

Incomplete Data

A Closed Approach to Vague Collections in Partly Inaccessible Distributed
Databases 261
Oliver Haase, Andreas Henrich

Infinite Relations in Paraconsistent Databases 275
Nicholas Tran, Rajiv Bagai

Queries

Query Rewriting and Search in CROQUE.....	288
<i>Joachim Kröger, Regina Illner, Steffen Rost, Andreas Heuer</i>	
Object Query Optimization in the Stack-Based Approach.....	303
<i>Jacek Płodzień, Anna Kraken</i>	

Database Theory

Compositional Specification Calculus for Information Systems Development.....	317
<i>Leonid Kalinichenko</i>	

Performance Issues

The Impact of Using Class Inheritance in a Distributed Information System	332
<i>Patrick Dunne, Alex Gray</i>	
Performance Assessment Framework for Distributed Object Architectures	349
<i>Matjaž B. Jurič, Tatjana Welzer, Ivan Rozman, Marjan Heričko,</i> <i>Boštjan Brumen, Tomaž Domajnko, Aleš Živkovič</i>	
Efficient Use of Signatures in Object-Oriented Database Systems	367
<i>Kjetil Nørnvåg</i>	

Author Index	383
---------------------------	------------

Advances in Databases and Information Systems
Third East European Conference, ADBIS'99, Maribor,
Slovenia, September 13-16, 1999, Proceedings
Eder, J.; Rozman, I.; Welzer, T. (Eds.)
1999, XIV, 390 p., Softcover
ISBN: 978-3-540-66485-7
