## Overview and Award Papers

### Overview Paper

Overview of RoboCup-98	..... 1
<i>Minoru Asada, Manuela Veloso, Milind Tambe, Itsuki Noda, Hiroaki Kitano, and Gerhard K. Kraetzschmar (Osaka Univ., Japan; Carnegie Mellon Univ., USA; USC, USA; Electrotechnical Laboratory, Japan; Sony CSL, Japan; University of Ulm, Germany)</i>	

### Scientific Challenge Award Papers

Character Design for Soccer Commentary	..... 22
<i>Binsted and Sean Luke (Sony CSL, Japan and University of Maryland, USA)</i>	
Automatic Soccer Commentary and RoboCup	..... 34
<i>Hitoshi Matsubara, Ian Frank, Kumiko Tanaka-Ishii, Itsuki Noda, Hideyuki Nakashima, and Kôiti Hashida (ETL, Japan)</i>	
Rocco: A RoboCup Soccer Commentator System	..... 50
<i>Dirk Voelz, Elisabeth André, Gerd Herzog, and Thomas Rist (DFKI, Germany)</i>	

### Champion Teams

The CMUnited-98 Champion Simulator Team	..... 61
<i>Peter Stone, Manuela Veloso, and Patrick Riley (CMU, USA)</i>	
The CMUnited-98 Champion Small-Robot Team	..... 77
<i>Manuela Veloso, Michael Bowling, Sorin Achin, Kwun Han, and Peter Stone (CMU, USA)</i>	
The CS Freiburg Robotic Soccer Team: Reliable Self-Localization, Multirobot Sensor Integration, and Basic Soccer Skills	..... 93
<i>Jens-Steffen Gutmann, Wolfgang Hatzack, Immanuel Herrmann, Bernhard Nebel, Frank Röttinger, Augustinus Topor, Thilo Weigel, and Bruno Welsch (Albert-Ludwigs-Universität Freiburg, Germany)</i>	

## Technical Papers

### Infrastructure

The Survey of RoboCup '98: Who, How and Why	..... 109
<i>Igor M. Verner (Technion-Israel Institute of Technology, Israel)</i>	
How to make a Challenging AI Course Enjoyable Using the RoboCup Soccer Simulation System	..... 120
<i>Silvia Coradeschi and Jacek Malec (Linköping University, Sweden)</i>	

A Quadruped Robot for RoboCup Legged Robot Challenge in Paris '98 <i>Masahiro Fujita, Stephane Zrehen, Hiroaki Kitano (Sony, Japan)</i>	..... 125
Robot Soccer with LEGO Mindstorms <i>Henrik Hautop Lund and Luigi Pagliarini (Univ. of Aarhus, Denmark)</i>	..... 141

## Basic Skill

Ball-Receiving Skill Dependent on Centering in Soccer Simulation Games <i>Kazuaki Maeda, Akinori Kohketsu, and Tomoichi Takahashi (Chubu Univ., Japan)</i>	..... 152
The Priority/Confidence Model as a Framework for Soccer Agents <i>Jan Lubbers and Rogier R. Spaans (University of Amsterdam, The Netherlands)</i>	..... 162
A User Oriented System for Developing Behavior Based Agents <i>Paul Scerri, Silvia Coradeschi, and Anders Törne (Linköping University, Sweden)</i>	..... 173

## Teamwork and Evaluation

From Play Recognition to Good Plays Detection - Reviewing RoboCup 97 Teams from Logfile - <i>Tomoichi Takahashi and Tadashi Naruse (Chubu Univ., Japan)</i>	..... 187
Inductive Verification and Validation of the KULRoT RoboCup Team <i>Kurt Driessens, Nico Jacobs, Nathalie Cossement, Patrick Monsieurs and Luc De Raedt (Katholieke Univ. Leuven, Belgium)</i>	..... 193
Layered, Resource-Adaptive Agents in the RoboCup Simulation <i>Christoph G. Jung (Universität des Saarlandes &amp; DFKI GmbH, Germany)</i>	..... 207
A Description-Processing System for Soccer Agents <i>Nobuhiro Ito, Kouichi Nakagawa, Xiaoyong Du, and Naohiro Ishii (Nagoya Institute of Technology, Japan)</i>	..... 221
Using an Explicit Teamwork Model and Learning in RoboCup <i>Stacy Marsella, Jafar Adibi, Yaser Al-Onaizan, Ali Erdem, Randall Hill, Gal A. Kaminka, Zhun Qiu, Milind Tambe (USC, USA)</i>	..... 237
A Hybrid Agent Model, Mixing Short Term and Long Term Memory Abilities. An Application to RoboCup Competition <i>Fausto Torterolo and Chaterine Garbay (Albert Bonniot Institute, France and Univ. di Palermo, Italy)</i>	..... 246

## Learning and Evolution

Team-Partitioned, Opaque-Transition Reinforcement Learning <i>Peter Stone and Manuela Veloso (CMU, USA)</i>	..... 261
Cooperative Behavior Acquisition in a Multiple Mobile Robot Environment by Co-evolution <i>Eiji Uchibe, Masateru Nakamura, and Minoru Asada, (Osaka University, Japan)</i>	..... 273

## Real Robot Perception, Mechanism, and Integration

Integrated Reactive Soccer Agents	..... 286
<i>Wei-min Shen, Jafar Adibi, Rogelio Adobbati, Srinil Lanksham, Hadi Moradi, Benham Salemi, and Sheila Tejada (ISI USC, USA)</i>	
An Innovative Approach to Vision, Localization and Orientation Using Omnidirectional Radial Signature Analysis	..... 299
<i>Andrew R. Price and Trevor Jones (Deakin University, Australia)</i>	
An Application of Vision-Based Learning in RoboCup for a Real Robot with an Omnidirectional Vision System and the Team Description of Osaka University "Trackies"	..... 316
<i>Sho'ji Suzuki, Tatsunori Kato, Hiroshi Ishizuka, Yasutake Takahashi, Eiji Uchibe, and Minoru Asada (Osaka Univ., Japan)</i>	
The RoboCup-NAIST: A Cheap Multisensor-Based Mobile Robot with On-Line Visual Learning Capability	..... 326
<i>Takayuki Nakamura, Kazunori Terada, Atsushi Shibata, and Hideaki Takeda (NAIST, Japan)</i>	

## Team Description

### Simulation

Andhill-98: A RoboCup Team which Reinforces Positioning with Observation	..... 338
<i>Tomohito Andou (NEC, Japan)</i>	
Evolving Team Darwin United	..... 346
<i>David Andre and Astro Teller (UC Berkeley, USA and CMU, USA)</i>	
UBU: Utility-Based Uncertainty Handling in Synthetic Soccer	..... 352
<i>Magnus Boman, Helena Aberg, Asa Ahman, Jens Andreassen, Mats Danielson, Carl-Gustaf Jansson, Johan Kummeneje, Harko Verhagen, Johan Walter (SU/KTH, Sweden)</i>	
AT Humboldt in RoboCup-98	..... 358
<i>Pascal Gugenberger, Jan Wendler, Kay Schröter, and Hans-Dieter Burkhard (Humboldt University Berlin, Germany)</i>	
Individual Tactical Play and Pass with Communication between Players -Team Descriptions of Team Miya2-	..... 364
<i>Harukazu Igarashi, Shougo Kosue and Masatoshi Miyahara (Kinki Univ., Japan)</i>	
UFSC-team: A Cognitive Multi-Agent Approach to the RoboCup'98 Simulator League	..... 371
<i>Augusto Cesar Pinto Loureiro da Costa and Guilherme Bittencourt (Universidade Federal de Santa Catarina, Brazil)</i>	

Description of Team Erika <i>Takeshi Matsumura (Waseda Univ., Japan)</i>	..... 377
Getting Global Performance through Local Information in PaSo-Team'98 <i>E. Pagello, F. Montesello, F. Garelli, F. Candon, P. Chioetto and S. Griggio (Padua University, Italy; Inst. LADSEB, Italy; Univ. of Venice, Italy)</i>	..... 384
A Direct Approach to Robot Soccer Agents: Description for the Team MAINZ ROLLING BRAINS Simulation League of RoboCup'98 <i>Daniel Polani, Stefan Weber, and Thomas Uthmann (Johannes Gutenberg-Universität, Germany)</i>	..... 390
CAT Finland: Executing Primitive Tasks in Parallel <i>Jukka Riekkii, Jussi Pajala, Antti Tikanmki, and Juha Rning (University of Oulu, Finland)</i>	..... 396
A Multi-level Constraint-Based Controller for the Dynamo98 Robot Soccer Team <i>Yu Zhang and Alan K. Mackworth (UBC, Canada)</i>	..... 402

## Real Robot Small-Size League

The small league RoboCup team of the VUB AI-Lab <i>Andreas Birk, Thomas Walle, Tony Belpaeme, Johan Parent, Tom De Vlaminck, and Holger Kenn (Vrije Universiteit Brussel, Belgium)</i>	..... 410
CHPS Glory - Soccer Robots with Local Intelligence <i>Thomas Brauml (The Univ. of Western Australia, Australia)</i>	..... 416
The Cambridge University Robot Football Team Description <i>A. Rowstron, B. Bradshaw, D. Crosby, T. Edmonds, S. Hodges, A. Hopper, S. Lloyd, J. Wang and S. Wray (Cambridge Univ., UK)</i>	..... 422
UQ RoboRoos: Preliminary Results for a Robot Soccer Team <i>Gordon Wyeth, Brett Browning, and Ashley Tews (University of Queensland, Australia)</i>	..... 428

## Real Robot Middle-Size League

ISocRob - Team Description <i>Pedro Aparicio, Rodrigo Ventura, Pedro Lima, and Carlos Pinto-Ferreira (ISR/IST, Portugal)</i>	..... 434
Real MagiCol 98: Team Description and Results <i>E. González, H. Loaiza, A. Surez, C. Morenoet (Universidad d'Evry Val d'Essonne - LaMI, Colombia)</i>	..... 440
Agilo RoboCuppers: RoboCup Team Description <i>Michael Klupsch, Maximilian Lückenhaus, Christoph Zierl, Ivan Laptev, Thorsten Bandlow, Marc Grimme, Ignaz Kellerer, Fabian Schwarzer (Technische Universität München, Germany)</i>	..... 446

The Ulm Sparrows: Research into Sensorimotor Integration, Agency, Learning, and Multiagent Cooperation .....	452
<i>Gerhard K. Kraetzschmar, Stefan Enderle, Stefan Sablatnoeg, Thomas Boss, Mark Dettinger, Hans Brazmayer, Heiko Folkerts, Markus Klingler, Dominik Maschke, Gerd Mayer, Markus Mueller, Alexander Neubeck, Marcus Ritter, Heiner Seidl, Robert Woerz, Guenther Palm (University of Ulm, Germany)</i>	
ART Azzurra Robot Team .....	458
<i>Daniele Nardi, Giorgio Clemente and Enrico Pagello (Univ. "La Sapienza", Italy)</i>	
Design and Evaluation of the T-Team of the University of Tuebingen for RoboCup'98 .....	464
<i>Michael Plagge, Boris Diebold, Richard Guenther, Joern Ihlenburg, Dirk Jung, Keyan Zahedi, and Andreas Zell (W.-Schickard-Institute for Computer Science, Tuebingen, Germany)</i>	
Team Description of the GMD RoboCup-Team .....	473
<i>A. Sieberg, A. Bredenfeld, H. Guenther, H.U. Kobialka, B. Klaassen, U. Licht, K.L. Paap, P.G. Ploeger, H. Streich, J. Vollmer, J. Wilberg, R. Worst, and T. Christaller (GMD, Germany)</i>	
UTTORI United: Cooperative Team Play Based on Communication .....	479
<i>Kazutaka Yokota, Koichi Ozaki, Nobuyuki Watanabe, Akihiro Matsumoto, Daisuke Koyama, Tatsuya Ishikawa, Kuniaki Kawabata, Hayato Kaetsu, and Hajime Asama (Utsunomiya Univ., Toyo Univ., and RIKEN, Japan)</i>	
<b>Legged robot league</b>	
Quadruped Robot Guided by Enhanced Vision System and Supervision Modules .....	485
<i>Vincent Hugel, Patrick Bonnin, Jean Christophe Bouramoué, Didier Solheid, Pierre Blazevic, and Dominique Duhaut (U. V. S. Q., France)</i>	
The CM Trio-98 Sony Legged Robot Team .....	491
<i>Manuela Veloso and William Uther (CMU, USA)</i>	
BabyTigers-98: Osaka Legged Robot Team .....	498
<i>Noriaki Mitsunaga, Minoru Asada, and Chizuko Mishima (Osaka Univ., Japan)</i>	
Author Index .....	507

RoboCup-98: Robot Soccer World Cup II

Asada, M.; Kitano, H. (Eds.)

1999, XI, 514 p. 250 illus., Softcover

ISBN: 978-3-540-66320-1
