

Table of Contents

I Foundations

Trust: Benefits, Models, and Mechanisms <i>(Vipin Swarup and Javier Thayer Fábrega)</i>	3
Protection in Programming–Language Translations <i>(Martín Abadi)</i>	19
Reflective Authorization Systems: Possibilities, Benefits, and Drawbacks <i>(Massimo Ancona, Walter Cazzola, and Eduardo B. Fernandez)</i>	35
Abstractions for Mobile Computations <i>(Luca Cardelli)</i>	51
Type–Safe Execution of Mobile Agents in Anonymous Networks <i>(Matthew Hennessey and James Riely)</i>	95
Types as Specifications of Access Policies <i>(Rocco De Nicola, GianLuigi Ferrari, and Rosario Pugliese)</i>	117
Security Properties of Typed Applets <i>(Xavier Leroy and François Rouaix)</i>	147

II Concepts

The Role of Trust Management in Distributed Systems Security <i>(Matt Blaze, Joan Feigenbaum, John Ioannidis, and Angelos D. Keromytis)</i>	185
Distributed Access–Rights Management with Delegation Certificates <i>(Tuomas Aura)</i>	211
A View–Based Access Control Model for CORBA <i>(Gerald Brose)</i>	237
Apoptosis — the Programmed Death of Distributed Services <i>(Christian Tschudin)</i>	253
A Sanctuary for Mobile Agents <i>(Bennet S. Yee)</i>	261
Mutual Protection of Co–operating Agents <i>(Volker Roth)</i>	275

III Implementations

Access Control in Configurable Systems (<i>Trent Jaeger</i>)	289
Providing Policy–Neutral and Transparent Access Control in Extensible Systems (<i>Robert Grimm and Brian N. Bershad</i>)	317
Interposition Agents: Transparently Interposing User Code at the System Interface (<i>Michael B. Jones</i>)	339
J–Kernel: A Capability–Based Operating System for Java (<i>Thorsten von Eicken, Chi–Chao Chang, Grzegorz Czajkowski, Chris Hawblitzel, Deyu Hu, and Dan Spoonhower</i>)	369
Secure Network Objects (<i>Leendert van Doorn, Martín Abadi, Mike Burrows, and Edward Wobber</i>)	395
History–Based Access Control for Mobile Code (<i>Guy Edjlali, Anurag Acharya, and Vipin Chaudhary</i>)	413
Security in Active Networks (<i>D. Scott Alexander, William A. Arbaugh, Angelos D. Keromytis, and Jonathan M. Smith</i>)	433
Using Interfaces to Specify Access Rights (<i>J. Hulaas, A. Villazón, and J. Harms</i>)	453
Introducing Trusted Third Parties to the Mobile Agent Paradigm (<i>Uwe G. Wilhelm, Sebastian Staamann, and Levente Buttyán</i>)	469

IV Appendix

List of Authors	493
----------------------------------	-----
