

Table of Contents

Interoperability: Invited Contributions

Mediation to Deal with Heterogeneous Data Sources.....	1
<i>Gio Wiederhold</i>	
OpenGIS: Tales from a Small Market Town	17
<i>Adrian Cuthbert</i>	
Evolution of EO/GIS Interoperability towards an Integrated Application Infrastructure.....	29
<i>Günther Landgraf</i>	

Identification

Feature Identities, Descriptors and Handles	41
<i>Philip Sargent</i>	
A Global Unique Persistent Object ID for Geospatial Information Sharing	55
<i>Yaser A. Bishr</i>	

Infrastructure

Implementation Architecture for a National Data Center	65
<i>Steve Ramroop, Richard Pascoe</i>	
Architecture Considerations for Advanced Earth Observation Application Systems.....	75
<i>Hermann Ludwig Möller, Marcello Mariucci, Bernhard Mitschang</i>	
A Spatial Data Infrastructure for the Hindu Kush – Himalayan Region ..	91
<i>Peter Bitter</i>	
Interoperability for GIScience Education	101
<i>Karen K. Kemp, Derek E. Reeve, D. Ian Heywood</i>	

Implementation

Adding an Interoperable Server Interface to a Spatial Database: Implementation Experiences with OpenMap™	115
<i>Charles B. Cranston, Frantisek Brabec, Gísli R. Hjaltason, Douglas Nebert, Hanan Samet</i>	

Interoperability in Practice: Problems in Semantic Conversion from Current Technology to OpenGIS	129
<i>Gilberto Câmara, Rogério Thomé, Ubirajara Freitas, Antônio Miguel Vieira Monteiro</i>	

Building a Prototype OpenGIS [®] Demonstration from Interoperable GIS Components	139
<i>Allan Doyle, Donald Dietrick, Jürgen Ebbinghaus, Peter Ladstätter</i>	

Vectors and Graphics

Modeling and Sharing Graphic Presentations of Geospatial Data	151
<i>Stefan F. Keller, Hugo Thalmann</i>	
Towards OpenGIS Systems	163
<i>Frits C. Cattenstart, Henk J. Scholten</i>	

Semantics

Semantic and Geometric Aspects of Integrating Road Networks	177
<i>Harry Uitermark, Anton Vogels, Peter van Oosterom</i>	
Assessing Semantic Similarities among Geospatial Feature Class Definitions	189
<i>M. Andrea Rodríguez, Max J. Egenhofer, Robert D. Rugg</i>	
Proceeding on the Road of Semantic Interoperability – Design of a Semantic Mapper Based on a Case Study from Transportation	203
<i>Yaser A. Bishr, Hardy Pundt, Christoph Rüther</i>	
What Are Sports Grounds? Or: Why Semantics Requires Interoperability	217
<i>Catharina Riedemann, Werner Kuhn</i>	

Heterogeneous Databases

Identifying Semantically Similar Elements in Heterogeneous Spatial Databases Using Predicate Logic Expressions	231
<i>Kristin Stock, David Pullar</i>	
Designing a Mediator for Managing Relationships between Distributed Objects	253
<i>Hanna Kemppainen</i>	
Geospatial Mediator Functions and Container-Based Fast Transfer Interface in SI ³ CO Test-Bed	265
<i>Shigeru Shimada, Hiromichi Fukui</i>	
Plug and Play: Interoperability in CONCERT	277
<i>Lukas Relly, Uwe Röhm</i>	

Representation

Functional Extensions of a Raster Representation for Topological Relations 293
Stephan Winter, Andrew U. Frank

3D Synthetic Environment Representation Using the "Non-Manifold
3D Winged-Edge" Data Structure 305
Roy Ladner, Kevin Shaw, Mahdi Abdelguerfi

Pluggable Terrain Module – Moving Digital Terrain Modelling to a
Distributed Geoprocessing Environment 315
Daria Martinoni, Bernhard Schneider

Author Index 329

Interoperating Geographic Information Systems
Second International Conference, INTEROP'99, Zurich,
Switzerland, March 10-12, 1999 Proceedings
Vckovski, A.; Brassel, K.E.; Schek, H.-J. (Eds.)
1999, XII, 336 p., Softcover
ISBN: 978-3-540-65725-5
