

Table of Contents

Vision for Navigation

Integrating Vision Based Behaviours with an Autonomous Robot1
C. Schlegel, J. Illman, H. Jaberg, M. Schuster, and R. Wötz

Topological Maps for Visual Navigation21
J. Santos-Victor, R. Vassallo and H. Schneebeli

Vision-Aided Outdoor Navigation of an Autonomous Horticultural Vehicle .37
B. Southall, T. Hague, J.A. Marchant, and B.F. Buxton

Computer Vision Systems

An Interactive Computer Vision System
DyPERS: Dynamic Personal Enhanced Reality System51
B. Schiele, N. Oliver, T. Jebara, and A. Pentland

Using Computer Vision to Control a Reactive Computer
Graphics Character in a Theater Play66
C. Pinhanez and A. Bobick

Sassy: A Language and Optimizing Compiler for Image Processing
on Reconfigurable Computing Systems83
J. P. Hammes, B. A. Draper, and A.P. Willem Böhm

Simulation and Scheduling of Real-Time Computer Vision Algorithms98
*F. Torres, F. A. Candelas, S. T. Puente, L. M. Jiménez,
C. Fernández, and R. J. Agulló*

Visual Tracking

Real-Time Maintenance of Figure-Ground Segmentation115
P. Nordlund and J.-O. Eklundh

An Integrated Framework for Robust Real-Time 3D Object Tracking135
M. Vincze, M. Ayromlou, and W. Kubinger

Face-Tracking and Coding for Video Compression151
W. E. Vieux, K. Schwerdt, and J. L. Crowley

Tracking People in a Railway Station During Rush-Hour162
E. Prassler, J. Scholz, and A. Elfes

Knowledge Based Methods/Systems

Active Knowledge-Based Scene Analysis	180
<i>D. Paulus, U. Ahlrichs, B. Heigl, J. Denzler, J. Hornegger, and H. Niemann</i>	
Experience in Integrating Image Processing Programs	200
<i>M. Thonnat, S. Moisan, and M. Crub��zy</i>	
Integration of Vision and Decision-Making in an Autonomous Airborne Vehicle for Traffic Surveillance	216
<i>S. Coradeschi, L. Karlsson, and K. Nordberg</i>	
Multilevel Integration of Vision and Speech Understanding Using Bayesian Networks	231
<i>S. Wachsmuth, H. Brandt-Pook, G. Socher, F. Kummert, and G. Sagerer</i>	
A Bayesian Computer Vision System for Modeling Human Interaction	255
<i>N. Oliver, B. Rosario, and A. Pentland</i>	
Action Reaction Learning: Automatic Visual Analysis and Synthesis of Interactive Behaviour	273
<i>T. Jebara and A. Pentland</i>	
A Generic Model for Perception-Action Systems. Analysis of a Knowledge-Based Prototype	293
<i>D. Hern��ndez-Sosa, J. Lorenzo-Navarro, M. Hern��ndez-Tejera, J. Cabrera-G��mez, A. Falc��n-Martel, and J. M��ndez-Rodr��guez</i>	

Architectures

A Hierarchical Vision Architecture for Robotic Manipulation Tasks	312
<i>Z. Doods, M. J��gersand, G. Hager, and K. Toyama</i>	
Optimal Image Processing Architecture for Active Vision	331
<i>P. Krautgartner and M. Vincze</i>	
Reactive Computer Vision System with Reconfigurable Architecture	348
<i>D. Benitez and J. Cabrera</i>	
MEPHISTO: A Modular and Extensible Path Planning System Using Observation	361
<i>P. Steinhaus, M. Ehrenmann, and R. Dillmann</i>	

Active Vision

DESEO: An Active Vision System for Detection, Tracking and Recognition	376
<i>M. Hernández, J. Cabrera, A. Dominguez, M. Castrillón, C. Guerra, D. Hernández, and J. Isern</i>	
Playing Domino: A Casy Study for an Active Vision System	392
<i>M. Bollmann, R. Hoischen, M. Jesikiewicz, C. Justkowski, and B. Mertsching</i>	
Improving 3D Active Visual Tracking	412
<i>J. Barreto, P. Peixoto, J. Batista, and H. Araujo</i>	
Surveillance System Based on Detection and Tracking of Moving Objects Using CMOS Imagers	432
<i>J. E. Santos Conde, A. Teuner, S.-B. Park, and B. J. Hosticka</i>	

3-D Modelling

3-D Modelling and Robot Localization from Visual and Range Data in Natural Scenes	450
<i>C. Parra, R. Murrieta-Cid, M. Devy, and M. Briot</i>	
Ascender II, a Visual Framework for 3D Reconstruction	469
<i>M. Marengoni, C. Jaynes, A. Hanson, and E. Riseman</i>	
Hybrid Approach to the Construction of Triangulated 3D Models of Building Interiors	489
<i>E. Wolfart, V. Sequeira, K. Ng, S. Butterfield, J. G. M. Gonçalves, and D. Hoog</i>	
On Camera Calibration for Scene Model Acquisition and Maintenance Using an Active Vision System	509
<i>R. Young, J. Matas, and J. Kittler</i>	

Object Recognition

ADORE: Adaptive Object Recognition	522
<i>B. A. Draper, J. Bins, and K. Baek</i>	
Object Recognition for a Grasping Task by a Mobile Manipulator	538
<i>S. Jonquière, M. Devy, F. Huynh, and M. Khatib</i>	
Authors Index	553

Computer Vision Systems

First International Conference, ICVS '99 Las Palmas,

Gran Canaria, Spain, January 13-15, 1999 Proceedings

Christensen, H.I. (Ed.)

1999, XII, 560 p., Softcover

ISBN: 978-3-540-65459-9
