

Contents

1	Introduction – Information in Models of General Equilibrium	1
1.1	Information as a Commodity	4
1.2	Information as a Characteristic of an Agent	7
1.3	Organization of the Analysis	10
2	Survey of the Literature	13
2.1	The Information of the Agents	13
2.2	Commodities, Consumption Sets, and Initial Endowments	15
2.3	Preferences	16
2.4	The Impact of Information on Consumption Plans	18
2.5	Information of the Agents as Coalition Members	20
2.6	Feasible Allocations	23
2.7	The Blocking of an Allocation by a Coalition	26
2.8	Incentive Compatibility	28
2.9	Definitions of the Core	30
2.10	Existence of Core Allocations	34
2.11	Properties of Core Allocations	40
2.12	Replica Theorems and Large Economies	42

3	Exchange Economies	45
3.1	Exchange Economies with Asymmetric Information	47
3.1.1	Agents and Their Information	47
3.1.2	Commodities, Agents, and Consumption Plans	48
3.1.3	Preferences	52
3.2	An Exchange Economy with Information Rule . .	54
3.2.1	Coalitions	54
3.2.2	Information Rules	55
3.2.3	Feasible Allocations	60
3.2.4	The Core of an Economy with Information Rule	65
3.3	The Game Generated by an Exchange Economy with Information Rule	69
3.4	Extensions: Incentives, Sequential Trade, and Learning	75
3.4.1	Incentive Compatibility	75
3.4.2	Sequential Trade and Learning	78
3.5	Conclusion	85
4	Production Economies	87
4.1	Coalition Production Economies with Asymmetric Information	89
4.1.1	Production Information Rules	89
4.1.2	The Technology Set of a Coalition	91
4.2	Feasible Allocations	93
4.2.1	Asymptotic Cones in $Map(\Omega, \mathbb{R}^L) \times P^*$. .	96
4.2.2	Properties of the Set of Feasible Allocations	98
4.3	The Core of a Production Economy with Asym- metric Information	101

4.4	The Cooperative Game Generated by a Production Economy	104
4.5	Balanced Technologies and the Existence of Core Allocations	107
4.6	Costs of Coalition Formation	114
4.7	Summary and Discussion	121
	Conclusion	125
	List of Symbols	129
	References	131
	Index	137
