

Contents

Plasmodesmata, a Maze of Questions	
A. J. E. van Bel, S. Günther and W. J. P. van Kesteren	1
Plasmodesmal Imaging – Towards Understanding Structure	
C. E. J. Botha and R. H. M. Cross	27
Tissue Preparation and Substructure of Plasmodesmata	
B. Ding	37
Electrical Coupling	
H. V. M. van Rijen, R. Wilders and H. J. Jongsma	51
Use and Limitations of Fluorochromes for Plasmodesmal Research	
P. B. Goodwin and L. C. Cantril	67
Use of GFP-Tagged Viruses in Plasmodesmal Research	
K. J. Oparka, A. G. Roberts and S. Santa Cruz	85
Evolution of Plasmodesmata	
M. E. Cook and L. E. Graham	101
The Perforate Septal Pore Cap of Basidiomycetes	
W. H. Müller, B. M. Humbel and A. C. van Aelst, T. P. van der Krift, T. Boekhout . .	119
Substructure of Plasmodesmata	
R. L. Overall	129
Multimorphology and Nomenclature of Plasmodesmata in Higher Plants	
R. Kollmann and C. Glockmann	149
Physiological Control of Plasmodesmal Gating	
A. Schulz	173
Plasmodesmal Coupling and Cell Differentiation in Algae	
M. Kwiatkowska	205

The Symplasmic Organization of the Shoot Apical Meristem
C. van der Schoot and P. Rinne 225

The Physiological and Developmental Consequences
of Plasmodesmal Connectivity
K. Ehlers and A. J. E. van Bel 243

Plasmodesmata in the Phloem-Loading Pathway
D. U. Beebe and W. A. Russin 261

P-Protein Trafficking Through Plasmodesmata
G. A. Thompson 295

Plasmodesmata and Long-Distance Virus Movement
P. M. Derrick and R. S. Nelson 315

Subject Index 341

Plasmodesmata

Structure, Function, Role in Cell Communication

Bel, A.J.E. van; Kesteren, W.J.P. van (Eds.)

1999, XIV, 357 p., Hardcover

ISBN: 978-3-540-65169-7
