

Contents

Foreword	V
Preface	VII
Contents	IX
List of Participants	XI
I. Economic Factors of Traffic Generation	
Multicriteria Demand Reaction Analysis in Passenger Transport <i>H. Baum and K. Esser</i>	3
II. Traffic Generation	
Dynamic Estimation of Transport Demand: Solutions – Requirements – Problems <i>K.J. Beckmann and G. Rindsfuser</i>	15
The Development of a Unified Modeling Framework for the Household Activity-Travel Scheduling Process <i>S.T. Doherty and K.W. Axhausen</i>	35
The Development of ALBATROSS: Some Key Issues <i>T.A. Arentze, F. Hofman, C.H. Joh, and H.J.P. Timmermans</i>	57
Analysis of Traffic Flow of Goods on Motorways by Means of Video Data – Chances and Limits <i>K. Henning, K. Grobel, and H. Saß</i>	73
Estimating Path Flows from Traffic Counts <i>M.G.H. Bell and S. Grosso</i>	85
III. Traffic Flow Theory, Networks	
Remarks on Traffic Flow Modeling and Its Applications <i>C.F. Daganzo</i>	105
Online Traffic Simulation with Cellular Automata <i>R. Barlovic, J. Esser, K. Froese, W. Knospe, L. Neubert, M. Schreckenberg, and J. Wahle</i>	117

Census-Based Travel Demand Generation for Transportation Simulations <i>J. Esser and K. Nagel</i>	135
Some New Approaches to the Microscopic Modelling of Traffic Flow and the Dynamic Route Assignment Problem <i>R. Böning, G. Eisenbeiß, C. Gawron, S. Krauß, R. Schrader, and P. Wagner</i> ...	149
Evaluation of Cellular Automata for Traffic Flow Simulation on Freeway and Urban Streets <i>W. Brilon and N. Wu</i>	163
Effects of New Vehicle and Traffic Technologies – Analysis of Traffic Flow, Fuel Consumption and Emissions with PELOPS <i>H. Wallentowitz, D. Neunzig, and J. Ludmann</i>	181
Traffic Simulation for the Development of Traffic Management Systems <i>W. Krautter, D. Manstetten, and T. Schwab</i>	193
Modelling Advanced Transport Telematic Applications with Microscopic Simulators: The Case of AIMSUN2 <i>J. Barceló, J. Casas, J.L. Ferrer, and D. García</i>	205
IV. Environmental Effects	
Modelling of Regional and Local Air Pollution Based on Dynamical Simulation of Traffic <i>W. Brücher, M.J. Kerschgens, C. Kessler, and A. Ebel</i>	225
Interaction of Traffic and Other Anthropogenic Emissions in Polluted Regions and Their Environment <i>C. Kessler, W. Brücher, M. Memmesheimer, M. J. Kerschgens, and A. Ebel</i> ..	241
Time Solved Assessment of Traffic Impacts in Urban Areas Based on Dynamic Traffic Simulation <i>F. Huber and S. Kaufmann</i>	259

Traffic and Mobility

Simulation — Economics — Environment

Brilon, W.; Huber, F.; Schreckenberg, M.; Wallentowitz,

H. (Eds.)

1999, XIV, 270 p., Hardcover

ISBN: 978-3-540-66295-2
