

CONTENTS

Preface	v
Contributors	ix
1 The Glucocorticoid Domain in the Lung and Mechanisms of Action	1
<i>Philip L. Ballard</i>	
2 Fetal Responses to Glucocorticoids	45
<i>Alan H. Jobe and Machiko Ikegami</i>	
3 Cyclic Adenosine Monophosphate and Glucocorticoid Regulation of Surfactant Protein-A Gene Expression	59
<i>Carole R. Mendelson, Laura F. Michael, Pampee P. Young, Jinxing Li, and Joseph L. Alcorn</i>	
4 Hormonal Regulation of Surfactant Protein-B and Surfactant Protein-C Gene Expression in Fetal Lung	81
<i>Vijayakumar Boggaram</i>	
5 Glucocorticoid Regulation of Fatty Acid Synthase in Fetal Lung	91
<i>Seamus A. Rooney</i>	
6 The Genetics of Glucocorticoid-Regulated Embryonic Lung Morphogenesis: A First Approximation of the Epigenetic Rules	105
<i>Tina Jaskoll and Michael Melnick</i>	
7 Corticotropin-Releasing Hormone and the Lung	125
<i>Maria Venihaki, Louis J. Muglia, and Joseph A. Majzoub</i>	
8 Sex Differences in Fetal Lung Development: Biology, Etiology, and Evolutionary Significance	141
<i>Heber C. Nielsen and John S. Torday</i>	
9 Retinoids and Lung Development	161
<i>Richard D. Zachman and Mary A. Grummer</i>	
10 Insulin and Lung Development	181
<i>Jeanne M. Snyder, Thomas N. George, and Olga L. Miakotina</i>	
11 The Insulin-like Growth Factor System and Lung	201
<i>Wayne A. Price and Alan D. Stiles</i>	
12 Platelet-Derived Growth Factor and Lung Development	225
<i>Nicholas J. Cartel and Martin Post</i>	
13 Transforming Growth Factor-β Receptor Signaling and Lung Development	241
<i>Yun Zhao</i>	

14	Transgenic Mouse Models for the Study of Growth Factor Signaling During Lung Morphogenesis	255
	<i>Jeffrey A. Whitsett and Thomas R. Korfhagen</i>	
15	Parathyroid Hormone-Related Protein	269
	<i>Lewis P. Rubin and John S. Torday</i>	
16	Role of Neuroendocrine Cells in Fetal and Postnatal Lung	299
	<i>Mary E. Sunday and Ernest Cutz</i>	
	Index	337

Endocrinology of the Lung

Development and Surfactant Synthesis

Mendelson, C.R. (Ed.)

2000, 360 p. 96 illus., 6 illus. in color., Hardcover

ISBN: 978-0-89603-676-5

A product of Humana Press
