Preface	v
Glossary of Abbreviations	xv
List of Contributors	xxi
I BACKGROUND	
1 History of Infectious Disease Oncology, from Galen to Rous <i>John Graner</i>	3
II HERPESVIRUSES	
2 Overview of Herpesviruses <i>Frank J. Jenkins and Linda J. Hoffman</i>	33
3 X-Linked Lymphoproliferative Disease <i>Thomas A. Seemayer, Timothy G. Greiner, Thomas G. Gross, Jack R. Davis, Arpad Lanyi, and Janos Sumegi</i>	51
4 Posttransplant Lymphoproliferative Disorder <i>Lode J. Swinnen</i>	63
5 Epstein–Barr Virus and Burkitt's Lymphoma <i>Guy de Thé</i>	77
6 Epstein–Barr Virus and Nasopharyngeal Carcinoma <i>Nancy Raab-Traub</i>	93
7 Hodgkin's Disease <i>Paula G. O'Connor and David T. Scadden</i>	113
8 AIDS-Related Lymphoma <i>Alexandra M. Levine</i>	129
9 Leiomyoma and Leiomyosarcoma <i>Hal B. Jenson</i>	145
10 Kaposi's Sarcoma and Other HHV-8-Associated Tumors <i>Chris Boshoff</i>	161

III RETROVIRUSES

- 11 Retroviruses and Cancer
Robin A. Weiss 197
- 12 Adult T-Cell Leukemia/Lymphoma
Masao Matsuoka 211
- 13 Clonal HIV in the Pathogenesis of AIDS-Related Lymphoma:
Sequential Pathogenesis
Michael S. McGrath, Bruce Shiramizu, and Brian G. Herndier 231

IV PAPILLOMAVIRUSES

- 14 Papillomaviruses in Human Cancers
Harald zur Hausen 245
- 15 Anogenital Squamous Cell Cancer and Its Precursors: *Natural History, Diagnosis, and Treatment*
Joel M. Palefsky 263
- 16 Human Papillomaviruses and Cancers of the Skin and Oral Mucosa
Irene M. Leigh, Judy A. Breuer, John A. G. Buchanan, Catherine A. Harwood, Sarah Jackson, Jane M. McGregor, Charlotte M. Proby, and Alan Storey 289

V HEPATITIS VIRUSES

- 17 Overview of Hepatitis B and C Viruses
Jia-Horng Kao and Ding-Shinn Chen 313
- 18 Hepatocellular Carcinoma
Michael C. Kew 331
- 19 Hepatitis C Virus, B-Cell Disorders, and Non-Hodgkin's Lymphoma
Clodoveo Ferri, Stefano Pileri, and Anna Linda Zignego 349

VI BACTERIAL AND HELMINTHIC ONCOLOGY

- 20 Overview of *Helicobacter pylori*
James G. Fox and Timothy C. Wang 371
- 21 Gastric Adenocarcinoma
Catherine Ley and Julie Parsonnet 389
- 22 Gastric Mucosa-Associated Lymphoid Tissue Lymphoma
Andrew C. Wotherspoon 411
- 23 *Salmonella typhi/paratyphi* and Gallbladder Cancer
Christine P. J. Caygill and Michael J. Hill 423
- 24 *Schistosoma hematobium* and Bladder Cancer
Monalisa Sur and Kum Cooper 435

VII OTHER INFECTIONS AND HUMAN NEOPLASMS

25	Does Childhood Acute Lymphoblastic Leukemia Have an Infectious Etiology? <i>Mel F. Greaves</i>	451
26	Polyoma Viruses (JC Virus, BK Virus, and Simian Virus 40) and Human Cancer <i>Keerti V. Shah</i>	461
27	In Pursuit of a Human Breast Cancer Virus, from Mouse to Human <i>Marjorie Robert-Guroff and Gertrude Case Buehring</i>	475
	Index	489

Infectious Causes of Cancer

Targets for Intervention

Goedert, J.J. (Ed.)

2000, XXVI, 498 p. 42 illus., 1 illus. in color., Hardcover

ISBN: 978-0-89603-772-4
