# Contents

Preface .....	v
Contributors .....	ix
1 Amino Acid Analysis: <i>An Overview</i> <b>Margaret I. Tyler</b> .....	1
2 Amino Acid Analysis, Using Postcolumn Ninhydrin Detection, in a Biotechnology Laboratory <b>Frank D. Macchi, Felicity J. Shen, Rodney G. Keck, and Reed J. Harris</b> .....	9
3 Purification of Proteins Using UltraMacro Spin Columns or ProSorb Sample Preparation Cartridges for Amino Acid Analysis <b>Li Zhang and Nancy Denslow</b> .....	31
4 Amino Acid Analysis Using Precolumn Derivatization with 6-Aminoquinolyl- <i>N</i> -Hydroxysuccinimidyl Carbamate <b>Steven A. Cohen</b> .....	39
5 Amino Acid Analysis by High-Performance Liquid Chromatography after Derivatization with 1-Fluoro-2,4-Dinitrophenyl-5-L-Alanine Amide (Marfey's Reagent) <b>Sunil Kochhar, Barbara Mouratou, and Philipp Christen</b> .....	49
6 The Analysis of Amino Acids Using Precolumn Derivatization, HPLC, and Electrochemical Detection <b>C. David Forster and Charles A. Marsden</b> .....	55
7 Anion Exchange Chromatography and Intergrated Amperometric Detection of Amino Acids <b>Petr Jandik, Christopher Pohl, Victor Barreto, and Nebojsa Avdalovic</b> .....	63
8 Ion-Pair Chromatography for Identification of Picomolar-Order Protein on a PVDF Membrane <b>Noriko Shindo, Tsutomu Fujimura, Saiko Kazuno, and Kimie Murayama</b> .....	87

9	Capillary Gas Chromatographic Analysis of Protein and Nonprotein Amino Acids in Biological Samples <b>Hiroyuki Kataoka, Sayuri Matsumura, Shigeo Yamamoto, and Masami Makita</b> .....	101
10	Measurement of Blood Plasma Amino Acids in Ultrafiltrates by High-Performance Liquid Chromatography with Automatic Precolumn O-Phthaldialdehyde Derivatization <b>Hua Liu</b> .....	123
11	Determination of Amino Acids in Foods by Reversed-Phase High-Performance Liquid Chromatography with New Precolumn Derivatives, Butylthiocarbamyl, and Benzylthiocarbamyl Derivatives Compared to the Phenylthiocarbamyl Derivative and Ion Exchange Chromatography <b>Kang-Lyung Woo</b> .....	141
12	Amino Acid Measurement in Body Fluids Using PITC Derivatives <b>Roy A. Sherwood</b> .....	169
13	Determination of Proteins, Phosphatidylethanolamine, and Phosphatidylserine in Lipid-Rich Materials by Analysis of Phenylthiocarbamyl Derivatives <b>Margareta Stark and Jan Johansson</b> .....	177
14	Analysis of O-Phosphoamino Acids in Biological Samples by Gas Chromatography with Flame Photometric Detection <b>Hiroyuki Kataoka, Norihisa Sakiyama, Yukizo Ueno, Kiyohiko Nakai, and Masami Makita</b> .....	183
15	Determination of Sulfur Amino Acids, Glutathione, and Related Amino thiols in Biological Samples by Gas Chromatography with Flame Photometric Detection <b>Hiroyuki Kataoka, Kiyomi Takagi, Hirofumi Tanaka, and Masami Makita</b> .....	207
16	Capillary Electrophoretic Determination of 4-Hydroxyproline <b>Qingyi Chu and Michael Zeece</b> .....	227
17	Total Plasma Homocysteine Analysis by HPLC with SBD-F Precolumn Derivatization <b>Isabella Fermo and Rita Paroni</b> .....	237
18	Determination of Early Glycation Products by Mass Spectrometry and Quantification of Glycation Mediated Protein Crosslinks by the Incorporation of [ <sup>14</sup> C]lysine into Proteins <b>Malladi Prabhakaram, Beryl J. Ortwerth, and Jean B. Smith</b> .....	245
	<b>Index</b> .....	255
