Preface	v
Glossary of Abbreviations	xiii
Contributors	xv

PART I. PURIFICATION OF COMPONENTS OF THE CALPAIN SYSTEM

1 Purification of μ - and m-Calpain and Calpastatin from Animal Tissues Valery F. Thompson and Darrel E. Goll	
2 A Simple Protocol for Separation and Assay of μ -Calpain, m-Calpain and Calpastatin from Small Tissue Samples Jan-Olof Karlsson	
3 Purification and Quantification of Calcium-Activated Neutral Proteases I and II and Novel Isoforms from Cultured Osteoblastic Cells by Ion-Exchange Fast Protein Liquid Chromatography Elsa J. B. Murray, Keyvan Behnam, Mario S. Grisanti, and Samuel S. Murray	
4 Purification of Calpain by Affinity Chromatography on Reactive Red-Agarose or on Casein-Sepharose Dorothy E. Croall	
5 Affinity Purification of μ -Calpain from Erythrocytes on an Immobilized Peptide from the Plasma Membrane Calcium Pump: Some Studies on Erythrocyte μ -Calpain Maurizio Molinari and Ernesto Carafoli	
6 Bacterial Expression and Purification of Recombinant m-Calpain John S. Elce	
7 Purification and Characterization of Crustacean Calpain-Like Proteinases Donald L. Mykles	
8 Drosophila Calpains: Purification of a Calpain-Like Enzyme from Fruit Flies, and Expression in <i>E. coli</i> Gáspár Jékely, Marianna Pintér, and Peter Friedrich	

- 9 Molecular Analysis of p94 and Its Application to Diagnosis of Limb Girdle Muscular Dystrophy Type 2A
Hiroyuki Sorimachi, Yasuko Ono, and Koichi Suzuki
- 10 Purification of Recombinant Calpastatin Expressed in *Escherichia coli*
Masatoshi Maki and Kiyotaka Hitomi
- 11 Preparation of Calpastatin Samples for Western Blotting
Masatoshi Maki and Kiyotaka Hitomi
- 12 Isolation and Characterization of Calpain Activator Protein from Bovine Brain
Edon Melloni, Mauro Michetti, Franca Salamino, Roberto Minafra, Bianca Sparatore, and Sandro Pontremoli

PART II. ASSAYS OF CALPAIN

- 13 Calpain Zymography with Casein or FITC-Casein
J. Simon C. Arthur and Donald L. Mykles
- 14 Casein Zymograph Assessment of μ - and m-Calpain Activity After Traumatic Brain Injury in the Rat In Vivo
Xiurong Zhao, Jennifer K. Newcomb, Brian R. Pike, and Ronald L. Hayes
- 15 Fluorescence Measurement of Ca^{2+} Binding to Domain VI of Calpain
J. Simon C. Arthur and John S. Elce
- 16 Kinetic Analysis of Human μ -Calpain Autolysis
Peter Tompa and Peter Friedrich
- 17 A Sensitive and Continuous Fluorometric Activity Assay Using a Natural Substrate, MAP2
Peter Tompa, Éva Schád, and Peter Friedrich
- 18 Measurement of Calpain Activity In Vitro and *In Situ* Using a Fluorescent Compound and Tau as Substrates
Rodney P. Guttman and Gail V.W. Johnson
- 19 Localization of Calpain by Immunofluorescence in Adherent Cells
Sucheta Kulkarni and Joan E. B. Fox
- 20 A Radioimmunologic Technique for Assessing Calpain Activation in Cells
Ronald L. Mellgren

PART III. SPECIFIC TISSUES

21	Calpains and Myogenesis Patrick Cottin, Sylvie Poussard, Elise Dargelos, Denis Balcerzak, Bernadette Aragon, Jean Jacques Brutis, and André Ducastaing
22	Calpastatin (the Endogenous Calpain Inhibitor) and Membrane Protein Degradation in Cell Fusion Nechama S. Kosower and Sivia Barnoy
23	The Role of Calpain in Neurofilament Protein Degradation Associated with Spinal Cord Injury Naren L. Banik and Donald C. Shields
24	Calpain-Mediated Truncation of Glutamate Ionotropic Receptors: Methods for Studying the Effects of Calpain Activation in Brain Tissue Xiaoning Bi, Ruifen Bi, and Michel Baudry
25	Concurrent Assessment of Calpain and Caspase-3 Activity by Means of Western Blots of Protease-Specific Spectrin Breakdown Products Jennifer K. Newcomb, Brian R. Pike, Xiurong Zhao, and Ronald L. Hayes
26	Rat Renal Proximal Tubules, Hypoxia, and Calpain Charles L. Edelstein
27	Calpain Activity in Rat Renal Proximal Tubules: An In Vitro Assay Charles L. Edelstein
28	Calpain Activity in Rat Renal Proximal Tubules: An <i>In Situ</i> Assay Charles L. Edelstein
29	Cellular In Vivo Assay of Calpain Activity Using a Fluorescent Substrate: Application to Study of Anoxic Liver Injury Barry G. Rosser and Gregory J. Gores
30	Calpain Methods in Hepatic Ischemia–Reperfusion Injury David Sindram and Pierre-Alain Clavien
31	Myocardial Ischemia–Reperfusion Injury and Proteolysis of Fodrin, Ankyrin, and Calpastatin Ken-ichi Yoshida
32	Calpains in the Lens and Cataractogenesis Thomas R. Shearer, Hong Ma, Marjorie Shih, Chiho Fukiage, and Mitsuyoshi Azuma

PART IV. SPECIFIC SUBSTRATES

33 Proteolysis of Cortactin by Calpain in Platelets and In Vitro
Cai Huang and Xi Zhan

34 Proteolysis of p53 Protein by Ubiquitous Calpain
Marc Piechaczyk

35 Modulation of Calpain-Mediated Protein Kinase C Activation Within
Intact Cells
Thomas B. Shea

36 Strategies for Regulating Calpain Activities in Living Cells
Neil E. Forsberg and Jing Huang

37 Assays of Apoptosis
Margaret K. T. Squier and J. John Cohen
