| | |
|--|-----|
| Preface | v |
| Contributors | ix |
| 1 In Vitro Assays for Measuring TGF β Growth Stimulation and Inhibition Maryanne Edens and Edward B. Leof | 1 |
| 2 Measurements of Active TGF β Generated by Culture Cells Roberta Mazziere, John S. Munger, and Daniel B. Rifkin | 13 |
| 3 Methods for Iodination of Active TGF β , TGF β Receptor Crosslinking and Immunoprecipitation of TGF β -Receptor Complexes David Danielpour | 29 |
| 4 Detection of TGF β in Body Fluids and Tissues Andrew H. Limper | 39 |
| 5 Analysis of TGF β -Mediated Synthesis of Extracellular Matrix Components Barbara A. Hockevar and Philip H. Howe | 55 |
| 6 Characterization of SMAD Phosphorylation and SMAD/Receptor Interaction Arun Mehra, Liliana Attisano, and Jeffrey L. Wrana | 67 |
| 7 Promoter Analysis of TGF β -Responsive Genes by Transient Transfection and Deletional/Mutational Analysis Ge Jin and Philip H. Howe | 79 |
| 8 Regulation of AP-1 Activity by TGF β Barbara A. Hockevar and Philip H. Howe | 97 |
| 9 CDK Pathway: Cyclin-Dependent Kinases (cdks) and Cyclin-Dependent Kinase Inhibitors Diana M. Gitig and Andrew Koff | 109 |
| 10 Activation of the Mitogen-Activated Protein Kinase Pathway by TGF β Jianbo Yue and Sanford Markowitz | 125 |
| 11 Detection of TGF β Type II Receptor Hotspot Mutations: The BAT-R11 Assay Lois L. Myeroff and Sanford Markowitz | 133 |

| | | |
|-------|---|-----|
| 12 | Mutation Detection in the TGF β Receptors and SMAD Genes: <i>RT-PCR and Sequencing</i> Lois L. Myeroff, Hongmei He, Stephen P. Fink, and Sanford Markowitz | 139 |
| 13 | Analysis of TGF β -Inducible Apoptosis Thomas L. Brown, Supriya Patil, and Philip H. Howe | 149 |
| Index | | 169 |
