

CONTENTS

Preface	v
Dedication	vii
Contributors	xi
1 Plant Cells and Tissues: <i>Structure–Function Relationships</i>	1
William V. Dashek	
2 Methods for the Cytochemical/Histochemical Localization of Plant Cell/Tissue Chemicals	27
William V. Dashek	
3 Methods in Light Microscope Radioautography	37
Alyce Linthurst and William V. Dashek	
4 Some Fluorescence Microscopical Methods for Use with Algal, Fungal, and Plant Cells	59
Virginia A. Shepherd	
5 Fluorescence Microscopy of Aniline Blue Stained Pistils	81
Renata Śnieżko	
6 A Short Introduction to Immunocytochemistry and a Protocol for Immunovisualization of Proteins with Alkaline Phosphatase	87
John E. Nielsen	
7 The Fixation of Chemical Forms on Nitrocellulose Membranes	101
Rosannah Taylor	
8 Dark-Field Microscopy and Its Application to Pollen Tube Culture	113
Tetsuya Higashiyama	
9 Computer-Assisted Microphotometry	121
Howard J. Swatland	
10 Isolation and Characterization of Endoplasmic Reticulum from Mulberry Cortical Parenchyma Cells	147
Norifumi Ukaji, Seizo Fujikawa, and Shizuo Yoshida	

11	Methods for the Identification of Isolated Plant Cell Organelles	161
	<i>William V. Dashek</i>	
12	Methods for the Detergent Release of Particle-Bound Plant Proteins	169
	<i>William V. Dashek</i>	
13	Scanning Electron Microscopy: <i>Preparations for Diatoms</i>	185
	<i>David W. Seaborn and Jennifer L. Wolny</i>	
14	Methods for the Ultrastructural Analysis of Plant Cells and Tissues	195
	<i>William V. Dashek and John E. Mayfield</i>	
15	Methods for Atomic Force and Scanning Tunneling Microscopies	215
	<i>William V. Dashek</i>	
16	Visualization of Golgi Apparatus by Zinc Iodide–Osmium Tetroxide (ZIO) Staining	223
	<i>Takako S. Kaneko, Mamiko Sato, and Masako Osumi</i>	
17	Methods in Electron Microscope Autoradiography	237
	<i>William V. Dashek</i>	
18	Electron Microscopic Immunogold Localization	247
	<i>Eliot M. Herman</i>	
19	Microanalysis	263
	<i>Martin J. Hodson</i>	
20	The Use of Electron Microscopy in Molecular Biology	279
	<i>Roslyn A. March-Amegadzie</i>	
21	Summation	293
	<i>William V. Dashek</i>	
	Index	295

Methods in Plant Electron Microscopy and
Cytochemistry

Dashek, W.V. (Ed.)

2000, XI, 300 p. 81 illus., 7 illus. in color., Softcover

ISBN: 978-0-89603-809-7

A product of Humana Press
