Table of Contents

Strategic Views on Future Network Architecture and Services
The Eurescom Project HINE (Heterogeneous In-House Networking Environment): A Cooperation between Telecom Operators for Advanced Home Networking 1
P. Pastorino, S. Brown, P.-Y. Danet, G. Goldacker, J. Gonzales Torres, T. Konstali, F. Phytoud

The Generic Network Model - an ITU Approach for Interoperability 12
T. Henriksen

SIP for Call Control in the 3G IP-Based UMTS Core Network.....32
D. Plasse

Integration of IN and Internet: The Balance between Idealism and Current Products Realism 39
G. Gylterud, M. Barry, V. Blavette, U. Herzog, T. Mota

IP-Based Convergence of Fixed and Cellular Networks and Services in the Light of Liberalization 51
D. Vergados, E. Vayias, J. Soldatos, D. Drakoulis, N. Mitrou

Internet Everywhere and on Every Network
Development of Internet Services Based on Pure JAVA Technology 65
K. Sbata, P. Vincent

An Applicability of Transition Mechanisms for IPv6/IPv4 within the Scope of GPRS with an Internet Communication 72
P. Vinayakray-Jani, R. Juvonen

Implementing the Integrated Services QoS Model with IPv6 over ATM Networks.....83
D. Fernández, D. Larrabeiti, A. B. García, A. Azcorra, L. Bellido, J. Berrocal

Transmission of DVB Service Information via Internet 96
A. Lugmayr, S. Kalli

Preparing for the Information Society with Performing Networks
Measurement of the Performance of IP Packets over ATM Environment via Multiprotocol-over-ATM (MPOA).....110
K.-O. Detken

Evaluation of a New Resource Reservation Scheme for MPEG Transmission in Highly Available Real-Time Channels 122
E. Hernández-Orallo, J. Vila i Carbó

Performance Evaluation of DiffServ Driven HFC System 137
G. Pikrammenos, H.-C. Leligou

Performance Evaluation of RMTP Using NS and RMTP Integration in Current Networks 147
T. Asfour, A. Serhrouchni,

European Perspective of Next Generation Networks
Active Virtual Private Network Services on Demand..... 160
A. Galis, S. Covaci

Convergence of IP Based and Optical Transport Networks 174
A. Lason, A. Manzalini, G. Chatzilias, L. Raptis, D. Colle, P. Demeester, M. Pickavet, M. Jaeger

Value for Money : Quality of Service and Resource Management
QoS ad hoc Internetworking : Dynamic Adaptation of Differentiated Services Boundaries 186
M. Smirnov

European Research in Next Generation Networks
An Integrated and Federative Approach to QoS Management in IP Networks 196
D. Ranc, J. Landru, A. Kabbaj

An Integrated Fixed/Mobile Network for 3G Services 209
J. C. Francis

Smart Card-Based Infrastructure for Customer Data Collection and Handling in the IST E-Tailor project (IST-1999-10549) 218
J. Clarke, S. Butler, G. Kartsounis, S. Topouzidou

Provision of QoS for Legacy IP Applications in an ATM-over-HFC Access Network 230
J. Jähnert, S.Wahl, H. C. Leligou

Traffic Management and Control
TCP Conformance for Network-Based Control 243
A. Koike

Congestion Control Mechanism for Traffic Engineering within MPLS Networks 254
F. Holness, C. Phillips

Software Switch Extensions for Portable Deployment of
Traffic Control Algorithms 264
G. Kormentzas, K. Kontovasilis

Capacity Management for Internet Traffic 278
S. O. Larsson, A. A. Nilsson

Bandwidth Broker and IP Networks
Building MPLS VPNs with QoS Routing Capability 292
P. Zhang, R. Kantola

A Linux Implementation of a Differentiated Services Router 302
T. Braun, H. J. Einsiedler, M. Scheidegger, G. Stattenberger, K. Jonas, H. J. Stüttgen

Design of a Multi-layer Bandwidth Broker Architecture 316
G. A. Politis, P. Sampatakos, I. S. Venieris

Seamless and Uninterrupted Interworking of Wireless and Wireline
Network Technologies 326
K. Vaxevanakis, S. Maniatis, N. Nikolaou, I. S. Venieris

Selective Topics in Networks
Modelling and Performance Evaluation of a National Scale
Switchless Based Network 337
J. Solé-Pareta, D. Careglio, S. Spadaro, J. Masip, J. Noguera, G. Junyent

Broadband over Inverse Multiplexed xDSL Modems 348
E. Edvardsen

Global Service Control for Multi-media Networks 357
T. de Groot, R. Mathonet, D. Stevenson

Applicability of ABR Service to Internet Applications 366
M. Ishizuka

Deploying Advanced IP Services on a Community Network 379
J. P. Firmeza, F. Fontes
