

# Preface

This volume consists of those papers presented at the Japan Conference on Discrete and Computational Geometry '98. The conference was held 9-12 December 1998 at Tokai University in Tokyo. Close to a hundred participants from 10 countries participated.

Interest in Computational Geometry surfaced among engineers in Japan about twenty years ago, while interest in Discrete Geometry arose as a natural extension of the research of a group of graph theorists more recently. One of the goals of the conference was to bring together these two groups and to put them in contact with experts in these fields from abroad.

This is the second conference in the series. The plan is to hold one every year and to publish the papers of the conferences every two years.

The organizers thank the sponsors of the conference, namely, The Institute of Educational Development of Tokai University, Grant-in-Aid of the Ministry of Education of Japan (A.Saito;(A)10304008), Mitsubishi Research Institute, Sanada Institute of System Development, Japan Process, and Upward. They also thank especially T. Asano, D. Avis, V. Chvátal, H. Imai, J. Pach, D. Rapaport, M. Ruiz, J. O'Rourke, K. Sugihara, T. Tokuyama, and J. Urrutia for their interest and support.

January 2000

Jin Akiyama  
Mikio Kano  
Masatsugu Urabe

## Committee Listings

J. Akiyama (Tokai University)  
K. Hosono (Tokai University)  
M. Kano (Ibaraki University)  
T. Kodate (Tokai University)  
T. Sakai (Tokai University)  
X. Tan (Tokai University)  
M. Urabe (Tokai University)

Japan Conference on Discrete and Computational Geometry, Tokyo, Tokai Univ., December 1998

Discrete and Computational Geometry
