

# I/16A: Low Energy Neutron Physics

## Contents

- |           |   |            |
|-----------|---|------------|
| <b>1</b>  | <b>Introduction</b>   | see Part 1 |
| <b>2</b>  | <b>The neutron as an elementary particle</b>  | see Part 1 |
| <b>3</b>  | <b>Neutron-matter interactions</b>  | see Part 1 |
| <b>4</b>  | <b>Neutron sources and spectrometers</b>  | see Part 1 |
| <b>5</b>  | <b>Neutron detectors</b>  | see Part 1 |
| <b>6</b>  | <b>Neutron scattering lengths</b>   | see Part 1 |
| <b>7</b>  | <b>Neutron induced reactions</b>  | see Part 1 |
| <b>8</b>  | <b>Thermal cross sections and resonance integrals</b>   | see Part 1 |
| <b>9</b>  | <b>Nuclear fission by neutrons</b>  | see Part 1 |
| <b>10</b> | <b>Neutron reactions followed by charged particles<br/>(Proton- and <math>\alpha</math>-decay of the compound states)</b>   | see Part 1 |
| <b>11</b> | <b>Average neutron resonance parameters</b><br>(A.V. IGNATYUK)  |            |
| <b>12</b> | <b>Radiative capture cross sections for fast neutrons</b><br>(T.S. BELANOVA, A.V. IGNATYUK, A.B. PASHCHENKO, V.I. PLYASKIN) |            |
| <b>13</b> | <b>Neutron induced threshold reactions</b><br>(V.N. MANOKHIN, A.I. BLOKHIN)   |            |

Low Energy Neutrons and their Interaction with Nuclei  
and Matter 1

2000, XII, 450 p. 211 illus. With CD-ROM., Hardcover

ISBN: 978-3-540-60857-8
