Contents

1	**Introduction**	1
2	**Brief History of Wires and Cables in Medicine and Technology**	
2.1	Conventional Binding Wire	4
2.1.1	Bone Suture: The Original Form of Osteosynthesis	4
2.1.2	Chronology of Osteosyntheses	6
2.1.3	Experiences with Cerclage Wire: A Critique	6
2.2	Wire Cables – State-of-the-Art Solution	12
2.2.1	A Brief Introduction, Including Valuable Technical Data	12
2.2.2	Principle of Cable Osteosyntheses	19
2.2.3	The Osteosynthesis Set	19
2.2.3.1	Wire Cables	19
2.2.3.2	Crimps	20
2.2.3.3	PE Sleeves	22
2.2.3.4	Instruments	23
3	**Cerclage Wire and Wire Cables: A Comparison**	
3.1	Performance and Testing	26
3.2	Results	27
3.2.1	Tensile Strength of Cerclage Wire and Wire Cables	27
3.2.2	Tensile Strength of Twists and Cable-Crimp Connections	28
3.2.3	Tensile Strength of Bent Cerclage Wire	31
3.2.4	Evaluation of the Results	32
3.2.4.1	Cerclage Wire	32
3.2.4.2	Wire Cables	32
3.2.5	References in the Literature	33
4	**Wire Cables in Everyday Hospital Life**	
4.1	Introduction	34
4.2	Technical Instructions for Operations	35
4.2.1	Tension Band Principle	35
4.2.2	Cerclage	36
4.2.3	Sleeve-Cable Combinations	37
4.2.4	Stretching and Crimping	38
4.2.5	The Final Steps	39
4.2.6	Errors and Risks	40
4.3	The Mechanics of Bone Healing	43
4.4	Biomechanic of Tension Band Principle	44
4.4.1	Tension Banding as a Technical and Osteosynthetic Principle	44
4.5	Patella Fracture	51

4.5.1 Historical Procedures 52
4.5.1.1 Closed Adjustment 53
4.5.1.2 Open Bone Suture 54
4.5.1.3 Tension Banding 56
4.5.2 Weber's Patella Tension Band and its Biomechanical Analysis 60
4.5.3 Bilateral Cable Tension Band and its Biomechanical Analysis 66
4.6 Olecranon Fracture 77
4.6.1 Historical Procedures 78
4.6.2 Weber's Olecranon Tension Band and its Biomechanical Analysis 80
4.6.3 Bilateral Cable Tension Band for Olecranon and Proximal Ulna Fractures 85
4.7 Ankle Joint and Pilon Fractures 93
4.7.1 Cable Tension Banding on the Medial Malleolus 94
4.8 Osseous Prominences 102
4.8.1 Trochanter Major Femoris 102
4.8.1.1 Trochanter Cable Tension Banding 105
4.8.2 Proximal Humerus and Tuberculum Majus 109
4.8.2.1 Cable Tension Banding on the Head of the Humerus and Tuberculum 110
4.8.3 Distal Humerus Fractures 115
4.8.3.1 Cable Tension Banding Shown on Epicondylus Ulnaris Avulsion 115
4.8.4 Avulsion Fracture at the Base of the Fifth Metatarsal 117
4.9 Compression Cable Osteosynthesis 119
4.9.1 Acetabulum Fractures and Dorsal Socket Avulsion Fracture 119
4.9.2 Corrective Osteotomy in the Knee Joint Region 122
4.9.2.1 Cable Osteosynthesis to Compress Valgus Tibial Head Adjustment Osteotomy 122
4.10 Cable Arthrodeses 126
4.10.1 Cable Arthrodesis of the Upper Ankle Joint 127
4.10.2 Pirogoff Amputation with Tibio-Calcaneal Cable Arthrodesis 131
4.11 Cable Cerclages 135
4.11.1 Shattering of Femur Shaft Following Total Endoprosthesis 135
4.12 Sleeve-Cable Banding of Unstable Pelvic Ring Injuries 138
4.13 Sleeve-Cable Osteosynthesis of Longitudinal Sternotomy 146
4.14 Soft Tissue Trauma – Temporary Protection of Ligament Sutures Using a Cable 148
4.14.1 Rupture of the Ligamentum Patellae, Quadriceps, and Achilles Tendon 148
4.14.1.1 Ligamentum Patellae 148
4.14.1.2 Quadriceps Tendon 150
4.14.1.3 Achilles Tendon 152
4.14.1.4 Ligamentum Patellae 152
4.14.1.5 Quadriceps Tendon 153
4.14.1.6 Achilles Tendon 153
4.14.2 Rupture of the Anterior Cruciate Ligament: Treatment According to Weigand 153
4.15 Special Indications 155

5 Review and Outlook 170
