
Contents

1	Peroxidases: A Historical Overview of Milestones in Research on Myeloperoxidase Robert A. Clark	1
2	Targeting of Proteins to Lysosomes and Granules Andrej Hasilik	11
3	Sorting and Processing of Neutrophil Granule Proteins Urban Gullberg, Niklas Bengtsson, Elinor Bülow, Daniel Garwicz, Anders Lindmark, Inge Olsson	22
4	X-Ray Crystallographic Studies of Human Myeloperoxidase C.A. Davey, T. Fiedler, R.E. Fenna	31
5	Structural and Biological Properties of Human Recombinant Myeloperoxidase Nicole Moguilevsky, Alex Bollen	38
6	Recent Insights into the Biosynthesis and Processing of Human Myeloperoxidase William M. Nauseef	45
7	Targets for Myeloperoxidase-Dependent Bactericidal Activity Henry Rosen	52
8	Reactions of Myeloperoxidase and Production of Hypochlorous Acid in Neutrophil Phagosomes Christine C. Winterbourn, Christine J. van Dalen, Mark B. Hampton, Anthony J. Kettle	58
9	Acquisition and Use of Myeloperoxidase in the Microbicidal Activity of Macrophages Laszlo Marodi, Christopher Tourney, Rita Kaposzta, Richard B. Johnston Jr., Nicole Moguilevsky	68
10	Cooperative Interactions of the Peroxidase and Nitric Oxide Pathways in Inflammatory Oxidant Production Jason P. Eiserich, Bruce A. Freeman, Carroll E. Cross, Albert van der Vliet	72

11	The Role of the Monoclonal Antibody Anti-Myeloperoxidase (anti-MPO) in the Diagnosis and Classification of Acute Leukaemias Estella Matutes	86
12	The Role of Myeloperoxidase in Myeloid Leukemia and Multiple Sclerosis Wanda F. Reynolds	93
13	Pathways for Oxidative Tissue Injury by Myeloperoxidase Jay W. Heinecke	102
14	Myeloperoxidase Activity of Neutrophils in Cystic Fibrosis Véronique Witko-Sarsat	107
15	Structure Function Relationships Amongst Members of the Animal Peroxidase Family of Proteins Rosa Pia Ferrari, Silvio Traversa	114
16	Myeloperoxidase (MPO) and Eosinophil Peroxidase (EPO) Deficiency in the Region Friuli-Venezia Giulia of North-Eastern Italy Pierluigi Patriarca, Maurizio Romano	122
17	Biochemistry and Physiology of Thyroid Peroxidase Jan J.M. de Vrijlder, Hennie Bikker	129
18	Severe Congenital Hypothyroidism Caused by Mutations in the Thyroid Peroxidase Gene Hennie Bikker, Jan J.M. de Vrijlder	133
19	Screening for Leukocyte Peroxidase Deficiencies by Means of Flow Cytometry: Application to the Study of Prevalence, Pathology and Genetics Dolphe Kutter, Luc Verstraeten	136
20	Prevalence of Inherited Myeloperoxidase Deficiency in Japan Kazuo Suzuki, Hiroyuki Nunoi, Makoto Miyazaki, Fumikazu Koi	145
21	Acquired and Inherited Forms of Myeloperoxidase Deficiency: Clinical and Hematological Features Francesco Lanza, Angela Latorraca, Sabrina Moretti, Barbara Castagnari, Luisa Ferrari, Gianluigi Castoldi	150
22	Myeloperoxidase-Positive and Negative Granulocytes: Investigations by Flow Cytometry Gernot Bruchelt, Claudia E. Gerber, Peter Bader, Matthias Zipfel, Thomas Klingebiel, Rupert Handgretinger, Dietrich Niethammer	157

23	Mutation Analysis for Genotype-Phenotype Relationships in Myeloperoxidase Deficiency Petro E. Petrides, Susanne Bock, Chuanbing Zang	166
24	Diagnostic Significance of Antineutrophil Cytoplasmic Antibodies (ANCA) in Systemic Vasculitides Loïc Guillevin, Bernard Jarrousse	173
25	Immunodiagnostic Aspects of Autoantibodies Against Myeloperoxidase Elena Csernok, Wolfgang L. Gross	180
26	Pathophysiological Mechanisms in Anti-Myeloperoxidase-Associated Vasculitis Jan Willem Cohen Tervaert	186
	Subject Index	191

The Peroxidase Multigene Family of Enzymes

Biochemical Basis and Clinical Applications

Petrides, P.E.; Nauseef, W.M. (Eds.)

2000, XII, 193 p., Hardcover

ISBN: 978-3-540-67154-1
