

# Contents

|             |   |     |
|-------------|---|-----|
| <b>I.</b>   | <b>Between Rationalism and Empiricism</b> .....                                     | 1   |
| I.1         | Remarks on the Concept of Cause (1969) .....  | 4   |
| I.2         | Aspects of Wholeness in Science and Philosophy (1987) ..                            | 23  |
| I.3         | Kant's Apriorism and Some Modern Positions (1988) ..                                | 36  |
| I.4         | C. F. von Weizsäcker and the Unity of Physics (1993) ..                             | 54  |
| I.5         | Between Rationalism and Empiricism:<br>The Path of Physics (1994) .....             | 69  |
| <b>II.</b>  | <b>The Philosophy of the Physicists</b> .....                                       | 87  |
| II.6        | The Physicists' Conception of Progress (1988) .....                                 | 90  |
| II.7        | Erwin Schrödinger and the Philosophy<br>of the Physicists (1991) .....              | 108 |
| II.8        | Albert Einstein: Theory, Experience, Reality (1992) ....                            | 119 |
| II.9        | Heisenberg's Concept of a Closed Theory (1993) .....                                | 136 |
| II.10       | The Origin of Scientific Realism:<br>Boltzmann, Planck, Einstein (1995) .....       | 142 |
| <b>III.</b> | <b>Reconstruction</b> .....   | 157 |
| III.11      | On the Structure of Physical Theories (1979) .....                                  | 160 |
| III.12      | A Comparison of Two Recent Views on Theories (1982) ..                              | 175 |
| III.13      | Towards a Rehabilitation of Reconstructionism (1984) ..                             | 195 |
| III.14      | Paul Feyerabend and Rational Reconstructions (1988) ..                              | 212 |
| <b>IV.</b>  | <b>Laws of Nature</b> .....   | 229 |
| IV.15       | Coherence and Contingency.<br>Two Neglected Aspects of Theory Succession (1989) ... | 232 |
| IV.16       | Predication and Physical Law (1991) .....   | 246 |
| IV.17       | Substances, Physical Systems,<br>and Quantum Mechanics (1991) .....                 | 261 |
| IV.18       | General Laws of Nature and the Uniqueness<br>of the Universe (1991) .....           | 276 |
| IV.19       | On Limitations of Physical Knowledge (1998) .....                                   | 289 |

|              |   |     |
|--------------|---|-----|
| <b>V.</b>    | <b>Reduction</b> .....  | 303 |
| V.20         | The Explanation of Kepler's Laws (1973) .....   | 306 |
| V.21         | Are There Explanations of Theories? (1976) .....  | 324 |
| V.22         | A Case Study Concerning the Limiting Case Relation<br>in Quantum Mechanics (1981) ..... | 339 |
| V.23         | A New Theory of Reduction in Physics (1993) .....                                       | 352 |
| V.24         | The Rationality of Reductionism (1995) .....  | 369 |
| <b>VI.</b>   | <b>Foundations of Quantum Mechanics</b> .....   | 379 |
| VI.25        | Quantum Logic and Some Aspects<br>of Logic in General (1985) .....                      | 383 |
| VI.26        | What Kind of Hidden Variables Are Excluded<br>by Bell's Inequality? (1986) .....        | 391 |
| VI.27        | The Copenhagen School and Its Opponents (1990) .....                                    | 402 |
| VI.28        | J. von Neumann's and J. S. Bell's Theorem.<br>A Comparison (1991) .....                 | 419 |
| VI.29        | EPR-Situation and Bell's Inequality (1991) .....  | 434 |
| VI.30        | Three Remarks Concerning Bell's Inequality (1993) .....                                 | 445 |
| <b>VII.</b>  | <b>Spacetime, Invariance, Covariance</b> .....  | 453 |
| VII.31       | Invariance and Covariance (1982) .....  | 457 |
| VII.32       | Hermann Weyl and the Nature of Spacetime (1988) .....                                   | 475 |
| VII.33       | Covariance and the Non-Preference<br>of Coordinate Systems (1991) .....                 | 490 |
| VII.34       | A Most General Principle of Invariance (1994) .....                                     | 501 |
| <b>VIII.</b> | <b>Mathematics and Physics</b> .....  | 513 |
| VIII.35      | Kant's Philosophy of Mathematics (1977) .....   | 517 |
| VIII.36      | Mathematics and Physical Axiomatization (1986) .....                                    | 535 |
| VIII.37      | Calculus! The Problem of the Application<br>of Logic and Mathematics (1988) .....       | 553 |
| VIII.38      | The Mathematical Overdetermination of Physics (1997) .....                              | 571 |
|              | <b>Acknowledgements</b> .....   | 585 |
|              | <b>Literature</b> .....   | 591 |
|              | <b>Index</b> .....  | 625 |

Between Rationalism and Empiricism  
Selected Papers in the Philosophy of Physics  
Scheibe, E. - Falkenburg, B. (Ed.)  
2001, VIII, 627 p., Hardcover  
ISBN: 978-0-387-98520-6
