

CONTENTS

Foreword by Victor J. Dzau	v
Preface	vii
Contributors	xiii
Color Plates	xvii

PART I ACUTE MECHANICAL INJURY AND VASCULAR REPAIR

1	Mechanical Injury in Normal and Atherosclerotic Rabbit Iliac Arteries	3
	<i>Frederick G.P. Welt, Elazer R. Edelman, and Campbell Rogers</i>	
2	The Porcine Model of Coronary Restenosis	19
	<i>Robert S. Schwartz, Birgit Kantor, and David R. Holmes Jr.</i>	
3	Atherosclerotic Porcine Coronary Stent Model: Technical Methods for Preclinical Studies	43
	<i>Andrew J. Carter</i>	
4	Nonhuman Primate Models of Arterial Injury and Repair	53
	<i>Mark Nedelman, Christopher Horvath, and Campbell Rogers</i>	
5	Experimental Models of Arteriovenous Grafting	61
	<i>Afshin Ehsan, Michael J. Mann, and Victor J. Dzau</i>	
6	Wire Denudation and Ligation Models of the Mouse Carotid Artery	79
	<i>Volkhard Lindner</i>	
7	Endothelial Denudation and Arterial Dilation in the Mouse	87
	<i>Zhiping Chen, Campbell Rogers, and Daniel I. Simon</i>	
8	Vascular Photochemical Injury in the Mouse	95
	<i>Daniel T. Eitzman and Randal J. Westrick</i>	
9	Mouse Model of Transluminal Femoral Artery Injury	103
	<i>Ernane D. Reis, Susan S. Smyth, and Barry S. Collier</i>	

PART II MODELS OF ARTERIAL THROMBOSIS

10	A Murine Model of Arterial Injury and Thrombosis	117
	<i>William P. Fay, Andrew C. Parker, and Yanhong Zhu</i>	

11	Folts Cyclic Flow Animal Model for Studying In Vivo Platelet Activity and Platelet Interactions with Damaged Arterial Walls	127
	<i>John D. Folts</i>	
PART III CHRONIC ATHEROSCLEROTIC MODELS		
12	Mouse Models of Atherosclerosis	149
	<i>Wulf Palinski, Claudio Napoli, and Peter D. Reaven</i>	
13	Rabbit Models of Atherosclerosis	175
	<i>Masanori Aikawa, Yoshihiro Fukumoto, Elena Rabkin, and Peter Libby</i>	
14	Atherosclerosis in Nonhuman Primates	193
	<i>David Kritchevsky and Robert J. Nicolosi</i>	
PART IV VASCULAR DISEASE IN TRANSPLANTED VESSELS		
15	Murine Carotid Loop Model of Transplant Vascular Disease	207
	<i>Victor Chengwei Shi and Jennifer L. Hoover</i>	
16	Murine Heterotopic Model of Transplant Arteriopathy	215
	<i>Richard N. Mitchell</i>	
17	Hyperacute Vascular Rejection: <i>Lessons from Pig-to-Primate Xenotransplantation</i>	231
	<i>Raymond H. Chen and David H. Adams</i>	
PART V VASCULAR DISEASE IN MODELS OF ARTERIAL HYPERTENSION		
18	Methods for Examining Cerebrovascular Disease in Experimental Models of Hypertension	247
	<i>Gary L. Baumbach</i>	
19	Monocrotaline-Induced Pulmonary Hypertension in Rats	261
	<i>Marlene Rabinovitch</i>	
20	Chronic Pulmonary Hypertension in the Hypoxic Rat and in the Sheep Following Continuous Air Embolization	281
	<i>Barbara Meyrick and Elena Tchekneva</i>	
PART VI ANIMAL CARE AND TISSUE PROCESSING		
21	Veterinary Issues and Anesthesia Options	303
	<i>Robert P. Marini</i>	
22	Histological and Immunohistochemical Methods for Vascular Animal Model Studies	325
	<i>Philip Seifert, Campbell Rogers, and Elazer R. Edelman</i>	
	Index	339
