

CONTENTS

Preface	v
Contributors	ix
1 Overview of Microwave-Assisted Tissue Processing for Transmission Electron Microscopy Richard S. Demaree, Jr. and Richard T. Giberson	1
2 Vacuum-Assisted Microwave Processing of Animal Tissues for Electron Microscopy Richard T. Giberson	13
3 Vacuum–Microwave Combination for Processing Plant Tissues for Electron Microscopy William A. Russin and Christina L. Trivett	25
4 Basic Procedure for Electron Microscopy Processing and Staining in Clinical Laboratory Using Microwave Oven Ronald L. Austin	37
5 Specimen Preparation for Thin-Section Electron Microscopy Utilizing Microwave-Assisted Rapid Processing in a Veterinary Diagnostic Laboratory Robert W. Nordhausen and Bradd C. Barr	49
6 Microwave Processing of Archived Pathology Specimens for Ultrastructural Examination Robert J. Munn and Phillip J. Vogt	67
7 Microwave Fixation of Rat Hippocampal Slices Marcia D. Feinberg, Karen M. Szumowski, and Kristen M. Harris	75
8 Microwave Processing Techniques for Biological Samples in a Service Laboratory Lou Ann Miller	89

9	Microwave-Accelerated Decalcification: <i>Useful Methods for Research and Clinical Laboratories</i> Victoria J. Madden	101
10	Microwave Processing of Sediment Samples Dawn Lavoie, Janet Watkins, and Yoko Furukawa	123
11	Microwave Polymerization in Thin Layers of London Resin White Allows Selection of Specimens for Immunogold Labeling Jennifer E. Lonsdale, Kent L. McDonald, and Russell L. Jones	139
12	In Vivo Microwave-Assisted Labeling of <i>Allium</i> and <i>Drosophila</i> Nuclei Mark A. Sanders and David M. Gartner	155
13	Microwave-Assisted Cytochemistry: <i>Accelerated Visualization of Acetylcholinesterase at Motor Endplates</i> John P. Petralia and Kenneth R. Mills	165
14	Microwave-Assisted Immunoelectron Microscopy of Skin: <i>Localization of Laminin, Type IV Collagen, and Bullous Pemphigoid Antigen</i> John P. Petrali and Kenneth R. Mills	173
15	Microwave Paraffin Techniques for Botanical Tissues Denise Schichnes, Jeffrey A. Nemson, and Steven E. Ruzin	181
16	Microwave-Assisted Formalin Fixation of Fresh Tissue: <i>A Comparative Study</i> Richard T. Giberson and Douglas E. Elliott	191
17	Microwave-Assisted Processing of Biological Samples for Scanning Electron Microscopy Richard S. Demaree, Jr.	209
	Index	217
