

Contents

Preface	v
List of Abbreviations	ix
List of Contributors	xv
PART I. CHARACTERIZING NUCLEASE ACTIVITY	1
1 Processivity of DNA Repair Enzymes R. Stephen Lloyd	3
2 Analysis by HPLC of Distributive Activities and the Synthetic (Back) Reaction of Pancreatic-Type Ribonucleases M. Victòria Nogués and Claudi M. Cuchillo	15
3 Ire1p: A Kinase and Site-Specific Endoribonuclease Tania N. Gonzalez and Peter Walter	25
4 Microtiter-Plate Assay and Related Assays for Nonspecific Endonucleases Gregor Meiss, Oleg Gimadutdinov, Peter Friedhoff, and Alfred M. Pingoud	37
5 Quantitating mRNAs with Relative and Competitive RT-PCR Ellen A. Prediger	49
6 Expressing Self-Incompatibility RNases (S-RNases) in Transgenic Plants Brian Beecher and Bruce A. McClure	65
7 Molecular Cloning, Tissue Distribution, and Chromosomal Localization of the Human Homolog of the R2/Th/Stylar Ribonuclease Gene Family Francesco Acquati, Cinzia Nucci, Marco G. Bianchi, Tatiana Gorletta, and Roberto Taramelli	87
PART II. INHIBITORS AND ACTIVATORS OF NUCLEASES	103
8 Ribonuclease Inhibitors Brittan L. Pasloske	105
9 Producing Soluble Recombinant RNases and Assays to Measure Their Interaction with Interferon- γ In Vitro Catherine H. Schein	113
10 Assays for the Evaluation of HIV-1 Integrase Inhibitors Zeger Debyser, Peter Cherepanov, Wim Pluymers, and Erik De Clercq	139
11 The Direction of Ribonucleases H by Antisense Oligodeoxynucleotides Richard V. Giles and David M. Tidd	157
12 The 2-5A/RNase L Pathway and Inhibition by RNase L Inhibitor (RLI) Catherine Bisbal, Tamim Salehzada, Michelle Silhol, Camille Martinand, Florence Le Roy, and Bernard Lebleu	183

PART III. RELATING NUCLEASE STRUCTURE AND FUNCTION	199
13 Crystallization and Crystal Structure Determination of Ribonuclease A-Ribonuclease Inhibitor Protein Complex Bostjan Kobe	201
14 Methods for Studying the Interaction of Barnase with Its Inhibitor Barstar Gideon Schreiber	213
15 Assaying In Vitro Refolding of RNases by Mass Spectrometry Gennaro Marino, Piero Pucci, and Margherita Ruoppolo	227
16 Dissecting Nucleases into Their Structural and Functional Domains: Mapping the RNA-Binding Surface of RNase III by NMR Andres Ramos and Annalisa Pastore	237
17 Using Electrostatics to Define the Active Site of <i>Serratia</i> Endonuclease Kurt L. Krause and Mitchell D. Miller	249
18 Homology Modeling and Simulations of Nuclease Structures Kizhake V. Soman, Catherine H. Schein, Hongyao Zhu, and Werner Braun	263
19 Methods for Determining Activity and Specificity of DNA Binding and DNA Cleavage by Class II Restriction Endonucleases Albert Jeltsch and Alfred M. Pingoud	287
20 Engineered Properties and Assays for Human DNase I Mutants Clark Q. Pan, Dominick V. Sinicropi, and Robert A. Lazarus	309
PART IV. NUCLEASES IN THE CLINIC	323
21 Assays for Human DNase I Activity in Biological Matrices Dominick V. Sinicropi and Robert A. Lazarus	325
22 Evaluation of Retroviral Ribonuclease H Activity Jennifer T. Miller, Jason W. Rausch, and Stuart F. J. Le Grice	335
23 Assays for Detection of RNase A Superfamily Ribonucleases Helene F. Rosenberg and Joseph B. Domachowske	355
24 Assay for Antitumor and Lectin Activity in RNase Homologs Kazuo Nitta	363
25 Isolation and Enzymatic Activity of Angiogenin James F. Riordan and Robert Shapiro	375
26 Preparation and Preclinical Characterization of RNase-Based Immunofusion Proteins Dianne L. Newton and Susanna M. Rybak	387
PART V. ASSAYS USING NUCLEASES	407
27 Restriction Endonucleases and Their Uses Raymond J. Williams	409
28 Isolation and Characterization of an Unknown Restriction Endonuclease Raymond J. Williams	431
29 Gene Modification with Hapaxotermistic Restriction Enzymes: Easing the Way Shelby L. Berger	443

30 Techniques to Measure Nucleic Acid-Protein Binding and Specificity:
*Nuclear Extract Preparations, DNase I Footprinting, and Mobility
Shift Assays*
Richard A. Rippe, David A. Brenner, and Antonio Tugores 459

31 Analyzing the Developmental Expression of Sigma Factors with S1-Nuclease
Mapping
Jan Kormanec 481

32 Detection and Quantitation of mRNAs Using Ribonuclease Protection Assays
Ellen A. Prediger 495

Index 507
