

Contents

11. Definitions and General Equations	1
11.1 Introduction	1
11.2 The O Notation	1
11.2.1 Definitions	1
11.2.2 Computation Rules	2
11.3 General Equations	4
11.3.1 Definitions	4
11.3.2 Intermediate Arcs	6
11.3.3 Orders of Magnitude of $\Delta\rho_i$ and $\Delta\dot{\rho}_i$	7
11.3.4 More Accurate Estimate of $\Delta\dot{\rho}_i$	9
11.3.5 Matching Relations	11
11.3.6 The Case $\mu = 0$	13
11.4 General Method	14
12. Quantitative Study of Type 1	17
12.1 Fundamental Equations	17
12.1.1 Arc Relations	17
12.1.2 Additional Relation for Two Arcs	19
12.1.3 Encounter Relations	20
12.1.4 Recapitulation	21
12.2 Exclusion of Successive Identical T -Arcs	23
12.3 The Case $\nu = 0$	25
12.3.1 First Species Orbit	25
12.3.2 Second Species Orbit	26
12.4 The Case $0 < \nu < 1/2$	27
12.4.1 First Species Orbit	28
12.4.2 Second Species Orbit	30
12.4.3 Sides of Passage	34
12.5 The Case $\nu = 1/2$	35
12.6 The Case $\nu > 1/2$	36

13. Partial Bifurcation of Type 1	39
13.1 Properties	39
13.1.1 Asymptotic Branches for $W \rightarrow \pm\infty$	40
13.1.2 Variational Equations for $W \rightarrow \pm\infty$	41
13.1.3 Jacobian	43
13.1.4 Relation with Stability	44
13.1.5 Asymptotic Behaviour for $ W \rightarrow \infty$	47
13.2 Small Values of n	47
13.2.1 $n = 2$	47
13.2.2 $n = 3$	48
13.2.3 $n = 4$	50
13.3 Positional Method	51
13.3.1 Principle	51
13.3.2 Branch Order	54
13.3.3 Results	60
14. Total Bifurcation of Type 1	79
14.1 Properties	79
14.1.1 Jacobian	79
14.1.2 Relation with Stability	80
14.1.3 Asymptotic Behaviour for $ W \rightarrow \infty$	81
14.2 Small Values of n	82
14.2.1 $n = 2$	82
14.2.2 Numerical Computation: Method	83
14.2.3 $n = 4$	84
14.2.4 $n = 6$	86
14.3 Conclusions for Type 1	87
15. The Newton Approach	93
15.1 Partial Bifurcation of Type 1: Variables and Equations	93
15.1.1 Additional Relations	95
15.2 Method of Solution	95
15.3 Newton Polyhedra	98
15.3.1 Encounter Equations	98
15.3.2 Arc Equations: General Case	99
15.3.3 Arc Equations: Initial Arc	101
15.3.4 Arc Equations: Final Arc	102
15.3.5 Additional Relations: General Case	103
15.3.6 Additional Relations: First Relation	104
15.3.7 Additional Relations: Last Relation	105
15.3.8 Additional Relations: Case $n = 2$	105
15.4 Intersections with the Cone of the Problem	106
15.5 Coherent Boundary Subsets	106
15.5.1 The Motzkin-Burger Algorithm	107
15.5.2 Elimination of Parasitic Solutions	110

15.5.3	Program	111
15.5.4	The Case 1P2	111
15.6	Truncated Systems of Equations	113
15.6.1	Degeneracy	113
15.7	Power Transformations	114
15.7.1	Case aaa	115
15.7.2	Case acc	117
15.7.3	Case aba	118
15.7.4	Case dad	118
15.7.5	Case caA	121
15.7.6	Case cda	122
15.7.7	Case bab	123
15.7.8	Case dbd	125
15.7.9	Case cbA	125
15.7.10	Case bbb	126
15.8	Total Bifurcation of Type 1	126
15.8.1	The Case 1T2	127
15.9	Conclusions	129
16.	Proving General Results	131
16.1	Variables and Equations	131
16.2	Method of Solution	132
16.3	Two General Propositions	132
16.4	The Case $p_2 = p_1/2$	135
16.5	The Case $p_2 < p_1/2$	135
16.6	The Case $p_2 > p_1/2$	136
16.6.1	No Arcs*	136
16.6.2	Arcs*	138
16.7	Conclusions	142
16.8	Appendix: No TT Node*	143
16.8.1	Partial T -Sequence	143
16.8.2	Total T -Sequence	147
17.	Quantitative Study of Type 2	149
17.1	New Notations T^f, T^g	149
17.2	Fundamental Equations	150
17.2.1	Encounter Relations	151
17.2.2	Arc Relations	151
17.2.3	Separation of the Case $n = 1$	158
17.3	The Case $\nu = 0$	158
17.3.1	T -Arc	158
17.3.2	S -Arc	159
17.4	The Case $0 < \nu < 1/3$	160
17.5	The Case $\nu = 1/3$: Transition 2.1	166
17.6	The Case $1/3 < \nu < 1/2$	171

17.7 The Case $\nu = 1/2$: Transition 2.2	176
17.8 The Case $\nu > 1/2$ Does Not Exist	179
18. The Case $1/3 < \nu < 1/2$	181
18.1 <i>R</i> -Arc	181
18.1.1 Properties	181
18.1.2 Number of Solutions	182
18.1.3 Stability and Jacobian	183
18.1.4 Small Values of \tilde{n}	184
18.2 <i>R</i> -Orbit	184
18.2.1 Properties	185
18.2.2 Stability and Jacobian	186
18.2.3 Small Values of n	188
18.2.4 Sign Sequences	191
18.3 Study of the Mapping	192
19. Partial Transition 2.1	199
19.1 Properties	199
19.1.1 Asymptotic Branches for $w \rightarrow \pm\infty$	201
19.1.2 Variational Equations for $w \rightarrow \pm\infty$	203
19.1.3 Asymptotic Branches for $w \rightarrow 0$	204
19.1.4 <i>R</i> -Jacobian	207
19.1.5 Stability	207
19.2 Small Values of \tilde{n}	208
19.2.1 $\tilde{n} = 1$	208
19.2.2 $\tilde{n} = 2$	209
19.2.3 $\tilde{n} = 3$	210
19.2.4 $\tilde{n} > 3$	211
19.3 Positional Method	212
19.3.1 Branch Order for $w \rightarrow \pm\infty$	212
19.3.2 Branch Order for $w \rightarrow 0$	214
19.3.3 Results	217
19.4 Results for Bifurcations of Type 2	221
19.4.1 The Case $w > 0$	221
19.4.2 The Case $w < 0$	223
20. Total Transition 2.1	225
20.1 Properties	225
20.1.1 Asymptotic Branches	226
20.1.2 Stability and Jacobian	226
20.2 Small Values of n	228
20.2.1 $n = 1$	228
20.2.2 $n = 2$	229
20.2.3 $n = 3$	230
20.2.4 $n = 4$	232

20.2.5	$n > 4$	236
20.3	Results for Bifurcations of Type 2	237
20.3.1	The Case $w > 0$	237
20.3.2	The Case $w < 0$	237
21.	Partial Transition 2.2	239
21.1	Properties	239
21.1.1	Asymptotic Branches for $W \rightarrow +\infty$	241
21.1.2	Variational Equations for $W \rightarrow +\infty$	244
21.1.3	Jacobian	246
21.1.4	Stability	247
21.1.5	Branch Notation	247
21.2	Small Values of n	248
21.2.1	$n = 1$	248
21.2.2	$n = 2$	249
21.2.3	$n = 3$	251
21.3	Positional Method	252
21.3.1	Branch Order for $W \rightarrow +\infty$	253
21.3.2	Results	258
21.4	Results for Bifurcations of Type 2	265
22.	Total Transition 2.2	271
22.1	Properties	271
22.1.1	Stability and Jacobian	272
22.2	Small Values of n	272
22.2.1	$n = 1$	273
22.2.2	$n = 2$	273
22.2.3	$n = 3$	276
22.2.4	Numerical Computation	276
22.3	Results for Bifurcations of Type 2	278
23.	Bifurcations 2T1 and 2P1	283
23.1	Total Bifurcation of Type 2, $n = 1$ (2T1)	283
23.1.1	The Case $\nu = 0$	283
23.1.2	The Case $0 < \nu < 1/2$	284
23.1.3	The Case $\nu = 1/2$	286
23.1.4	The Case $\nu > 1/2$	288
23.1.5	Recapitulation	288
23.2	Partial Bifurcation of Type 2, $n = 1$ (2P1)	290
23.2.1	The Case $\nu = 0$	290
23.2.2	T -Arcs: The Case $0 < \nu < 2/3$	291
23.2.3	T -Arcs: The Case $\nu \geq 2/3$	292
23.2.4	S -Arcs: The Case $0 < \nu < 1$	292
23.2.5	S -Arcs: The Case $\nu \geq 1$	294
23.2.6	Recapitulation	294

XII Contents

23.3 Conclusions for Type 2	294
23.3.1 The Newton Approach	294
23.3.2 Proving General Results	295
23.4 Type 3	295
Index of Definitions	297
Index of Notations	299
