

Table of Contents

Keynotes

Zürich Airport Extension Project: Digital Support for Earthwork Construction.....1	
<i>A. Brunner</i>	
Designed Landforms2	
<i>S.M. Ervin</i>	
Terrafactors and the Art of Consensus Building.....3	
<i>G. Huber</i>	

Technical Submissions

GPS-Based Earthmoving for Construction.....4	
<i>C.L. Koehrsen, W.C. Sahn, C.W. Keefer</i>	
Feature Lines Reconstruction for Reverse Engineering.....18	
<i>A. Raviola, M. Spagnuolo, G. Patané</i>	
Geomorphometrical Mapping of Relief-Dissection Using GIS.....31	
<i>G. Mezősi, R. Kiss</i>	
AutoCAD Land Development Desktop Release 2i.....39	
<i>M. Schoenstein</i>	
Procedural Geometry for Real-Time Terrain Visualisation in Blueberry3D43	
<i>M. Widmark</i>	
A Quasi-Four Dimensional Database for the Built Environment.....48	
<i>H.S. Hansen</i>	
Interactive Generation of Digital Terrain Models Using Multiple Data Sources.....60	
<i>A. Weber, J. Benner</i>	
The Shuttle Radar Topography Mission.....65	
<i>T.A. Hennig, J.L. Kretsch, C.J. Pessagno, P.H. Salamonowicz, W.L. Stein</i>	
Corner, End, and Overlap “Extrusion Junctures”: Parameters for Geometric Control.....78	
<i>C.Y. Westort</i>	
Contour Lines and DEM: Generation and Extraction.....87	
<i>L. Rognant, J.G. Planès, M. Memier, J.M. Chassery</i>	

Modeling of Ecosystems as a Data Source for Real-Time Terrain Rendering98
J. Hammes

Seamless Integration of New Control Technologies112
E. Korpershoek

Author Index.....117

Digital Earth Moving

First International Symposium, DEM 2001, Manno,
Switzerland, September 5-7, 2001. Proceedings
Westort, C.Y. (Ed.)

2001, XII, 124 p., Softcover

ISBN: 978-3-540-42586-1
