

Contents

Part I Lectures

Introduction to Magnetism and Magnetic Materials

D. Givord 3

Spectroscopy and Magnetism: An Introduction

J.-M. Mariot, Ch. Brouder 24

Instrumentation Developments

for Polarization Dependent X-ray Spectroscopies

A. Rogalev, J. Goulon, Ch. Goulon-Ginet, C. Malgrange 60

Dichroism in X-ray Absorption

M. Sacchi, J. Vogel 87

A Photoemission Primer

M. Grioni 109

Micromagnetics: Dynamical Aspects

J. Miltat, G. Albuquerque, A. Thiaville 129

Magnetization Reversal of Nano-particles

B. Barbara 157

Molecular Magnetism:

Design of High- T_C Prussian Blue Molecule Based Magnets

Ch. Cartier dit Moulin 209

Spin-Resolved Circularly Polarised Resonant Photoemission: Cu^{2+} as a Model System

N.B. Brookes 225

X-ray Magnetic Circular Dichroism at Low Temperature

Ph. Saintavrit, J.-P. Kappler 235

High-Pressure Magnetism and Magnetic Circular Dichroism

F. Baudalet 254

Resonant Inelastic X-ray Scattering

C.F. Hague 273

Some Nuclear Techniques in Experimental Magnetism: Mössbauer Effect, Neutron Scattering and Nuclear Magnetic Resonance

M. Piecuch 291

Linear and Non-linear Magneto-optical Effects: Magnetism of Thin Film Structures

J. Ferré 316

Part II Topical Cases

Relation Between X-ray Magnetic Linear Dichroism and Magnetocrystalline Anisotropy

G. van der Laan 339

Field Induced Magnetic Circular Dichroism in Paramagnetic Solids

H. Ebert, M. Deng, H. Freyer 343

X-ray Magnetic Circular Dichroism in the Investigation of Magnetisation Dynamics in the Nanosecond Time Scale

*G. Ghiringhelli, M. Bonfim, N.B. Brookes, J. Camarero, K. Mackay,
F. Montaigne, T. Neisius, Ph. Ohresser, S. Pascarelli, F. Petroff, S. Pizzini,
A. Fontaine* 347

Magnetism in Nanoscale Fe Clusters Studied by Dichroism in X-ray Absorption and Photoemission

*C. Binns, K.W. Edmonds, S.H. Baker, M.J. Maher, S.C. Thornton,
O. Tjernberg, N.B. Brookes* 355

X-ray Spectromicroscopy and Applications to Magnetic Materials

M. Marsi 361

Magnetic Ordering and Resonance Process in Sm Epitaxial Films and Superlattices: An RXMS Study

*C. Dufour, K. Dumesnil, A. Stunault, N. Bernhoeft, Ch. Vettier,
Ph. Mangin* 368

X-ray Gyrotropy Related Spectroscopies: Natural Circular Dichroism and Non-reciprocal Linear Dichroism

*J. Goulon, A. Rogalev, C. Goulon-Ginet, G. Benayoun, C. Malgrange,
Ch. Brouder* 374

Synchrotron-Based Mössbauer Spectroscopy at Iron Islands and Clusters on Tungsten (110)

*V. Senz, R. Röhlberger, J. Bansmann, A. Bettac, K.-L. Jonas,
O. Leupold, R. Rüffer, E. Burkel, K.-H. Meiwes-Broer* 382
