

Erratum

Lecture Notes in Physics. Vol. 571

C.F. Barenghi, R.J. Donnelly, W.F. Vinen (Eds.),
Quantized Vortex Dynamics and Superfluid Turbulence
ISBN 3-540-42226-9

In the contribution by M. Niemetz, H. Kerscher, and W. Schoepe
“Intermittent Switching Between Turbulent and Potential Flow
Around a Sphere in He II at mK Temperatures”

due to a technical mistake, the upright Greek symbols μ and Δ are
incorrectly represented by their Latin equivalents “m” and “D” in
the printed version. On the following pages of this contribution,
the correct expressions should be:

p. 87: (1) $r = 124 \text{ mm} \rightarrow r = 124 \mu\text{m}$

(2) $m = 27 \text{ mg} \rightarrow m = 27 \mu\text{g}$

p. 91: 1st, 7th, 9th line from bottom: $Dv \rightarrow \Delta v$

p. 92: (1) Fig. 5a (caption) (2) Eq. (5), (3) 3rd line below Eq. (5):
 $Dv \rightarrow \Delta v$ and $D\dot{v} \rightarrow \Delta\dot{v}$

The errors were corrected in the online version.

Quantized Vortex Dynamics and Superfluid Turbulence

Barenghi, C.F.; Donnelly, R.J.; Vinen, W.F. (Eds.)

2001, XXII, 458 p., Hardcover

ISBN: 978-3-540-42226-6
