

Table of Contents

Mathematical Models of Computer Security	1
<i>Peter Y. A. Ryan</i>	
The Logic of Authentication Protocols	63
<i>Paul Syverson and Iliano Cervesato</i>	
Access Control: Policies, Models, and Mechanisms	137
<i>Pierangela Samarati and Sabrina de Capitani di Vimercati</i>	
Security Goals: Packet Trajectories and Strand Spaces	197
<i>Joshua D. Guttman</i>	
Notes on Nominal Calculi for Security and Mobility	262
<i>Andrew D. Gordon</i>	
Classification of Security Properties (Part I: Information Flow)	331
<i>Riccardo Focardi and Roberto Gorrieri</i>	
Author Index	397
