

# Table of Contents

## Invited Papers

Kronecker Algebra and (Stochastic) Petri Nets: Is it Worth the Effort? ...	1
<i>Susanna Donatelli</i>	
The Flux of Interaction .....	19
<i>Robin Milner</i>	
Towards a Notion of Distributed Time for Petri Nets .....	23
<i>Mogens Nielsen, Vladimiro Sassone, Jiří Srba</i>	

## Full Papers

Identifying Commonalities and Differences in Object Life Cycles Using Behavioral Inheritance .....	32
<i>Wil M.P. van der Aalst, Twan Basten</i>	
Timed Petri Nets and BQOs .....	53
<i>Parosh Aziz Abdulla, Aletta Nylén</i>	
CPN/Tools: A Post-WIMP Interface for Editing and Simulating Coloured Petri Nets .....	71
<i>Michel Beaudouin-Lafon, Wendy E. Mackay, Peter Andersen, Paul Janecek, Mads Jensen, Michael Lassen, Kasper Lund, Kjeld Mortensen, Stephanie Munck, Anne Ratzer, Katrine Ravn, Søren Christensen, Kurt Jensen</i>	
Petri Net Based Design and Implementation Methodology for Discrete Event Control Systems .....	81
<i>Slavek Bulach, Anton Brauchle, Hans-Jörg Pfleiderer, Zdenek Kucеровsky</i>	
Condensed State Spaces for Timed Petri Nets .....	101
<i>Søren Christensen, Lars Michael Kristensen, Thomas Mailund</i>	
Unfolding of Products of Symmetrical Petri Nets .....	121
<i>Jean-Michel Couvreur, Sébastien Grivet, Denis Poitrenaud</i>	
Partial Order Verification of Programmable Logic Controllers .....	144
<i>Peter Deussen</i>	
Structural Characterization and Qualitative Properties of Product Form Stochastic Petri Nets .....	164
<i>Serge Haddad, Patrice Moreaux, Matteo Sereno, Manuel Silva</i>	

Generalized Conditions for Liveness Enforcement and Deadlock Prevention in Petri Nets .....	184
<i>Marian V. Iordache, Panos J. Antsaklis</i>	
A Concurrent Semantics of Static Exceptions in a Parallel Programming Language .....	204
<i>Hanna Klaudel, Franck Pommereau</i>	
Modelling the Structure and Behaviour of Petri Net Agents .....	224
<i>Michael Köhler, Daniel Moldt, Heiko Rölke</i>	
Model Checking LTL Properties of High-Level Petri Nets with Fairness Constraints .....	242
<i>Timo Latvala</i>	
Incremental State Space Construction for Coloured Petri Nets .....	263
<i>Glenn Lewis, Charles Lakos</i>	
Optimising Enabling Tests and Unfoldings of Algebraic System Nets .....	283
<i>Marko Mäkelä</i>	
Extending the Petri Box Calculus with Time .....	303
<i>Olga Marroquín Alonso, David de Frutos Escrig</i>	
Abstractions and Partial Order Reductions for Checking Branching Properties of Time Petri Nets .....	323
<i>Wojciech Penczek, Agata Półrola</i>	
Pr/T-Net Based Seamless Design of Embedded Real-Time Systems .....	343
<i>Carsten Rust, Jürgen Tacke, Carsten Böke</i>	
Rewriting Logic and Elan: Prototyping Tools for Petri Nets with Time ...	363
<i>L. Jason Steggle</i>	
Partial S-Invariants for the Verification of Infinite Systems Families .....	382
<i>Walter Vogler</i>	
<b>Author Index</b> .....	403

Applications and Theory of Petri Nets 2001  
22nd International Conference, ICATPN 2001 Newcastle  
upon Tyne, UK, June 25-29, 2001 Proceedings  
Colom, J.-M.; Koutny, M. (Eds.)  
2001, XII, 408 p., Softcover  
ISBN: 978-3-540-42252-5
