
Contents

Basic Aspects

- 1 The Epidermal Barrier and Strategies for Surmounting It:
An Overview
G.K. MENON, P.M. ELIAS 3
- 2 Stem Cells, Differentiation and Renewal Kinetics of
Keratinocytes: Implications for Cutaneous Gene Therapy
J.R. BICKENBACH 27
- 3 Relevant Animal Models for Skin Gene Therapy
M.J. ARIN, T. CAO, T.R. BERTON, Z. ZHOU, X.-J. WANG,
D.R. ROOP 35
- 4 Nonviral Gene Transfer into the Skin
B. VOLC-PLATZER, U.R. HENGGE, A. UDVARDI 53
- 5 Safety and Pharmacokinetics of Naked Plasmid DNA:
Studies on Dissemination and Ectopic Expression
U.R. HENGGE, B. DEXLING, A. UDVARDI,
B. VOLC-PLATZER, A. MIRMOHAMMDSADEGH 67
- 6 Uptake of DNA by Keratinocytes
U.R. HENGGE, E. TSCHAKARJAN,
A. MIRMOHAMMDSADEGH, M. GOOS, H.E. MEYER 81

Treatment of Skin Diseases

- 7 Gene Therapy of Inherited Skin Diseases
G. MENEGUZZI, J. VAILLY 97
- 8 Gene Transfer Strategies in Tissue Repair
S.A. EMING, J.M. DAVIDSON, T. KRIEG 117

Systemic Effects of Skin Gene Therapy

- 9 The Use of Skin-Directed Gene Therapy
in the Treatment of Systemic Diseases
T. G. JENSEN, K. G. CSAKY 141
- 10 Keratinocyte Gene Therapy Using Cytokine Genes
D. SAWAMURA 155

Genetic Vaccination Using the Skin

- 11 Principles of Genetic Immunization
D. J. LEE, K. TAKABAYASHI, M. CORR, E. RAZ 177
- 12 Systematic Modulation of Immune Responses
by CpG DNA
A. M. KRIEG 201
- 13 Genetic and Dendritic Cell Vaccination
as a Novel Therapy for Melanoma
D. SCHADENDORF, A. PASCHEN, Y. SUN 219
- 14 Molecular Strategies Interfering
with Tumor Progression of Melanoma
and Improving Anti-Tumor Immunity
A. SCHNEEBERGER, M. GOOS, G. STINGL, S. N. WAGNER 245
- 15 Prophylactic and Therapeutic DNA Vaccines
Against Infectious Diseases
J. E. KALLMAN, H. C. MAGUIRE JR, J. S. YANG, J. J. KIM,
D. B. WEINER 275

- Subject Index 295
