

Contents

Part I

Introductory Survey

1. **A Perspective on Titanium Biocompatibility** 1
Buddy D. Ratner
2. **Titanium for Medical Applications** 13
David F. Williams

Part II

Metallurgy and Fabrication; Surface and Technological Properties

3. **Metallurgy and Technological Properties of Titanium and Titanium Alloys** 25
Howard L. Freese, Michael G. Volas, J. Randolph Wood
4. **Titanium-Nickel Shape Memory Alloys in Medical Applications** 53
Peter Filip
5. **Characterization of Titanium Surfaces** 87
Janos Vörös, Marco Wieland, Laurence Ruiz-Taylor, Marcus Textor, Donald M. Brunette
6. **The Corrosion Properties of Titanium and Titanium Alloys** 145
Rolf Schenk
7. **Properties and Biological Significance of Natural Oxide Films on Titanium and Its Alloys** 171
Marcus Textor, Caroline Sittig, Vinzenz Frauchiger, Samuele Tosatti, Donald M. Brunette

Part III

Surface Engineering

8. **Mechanical, Thermal, Chemical and Electrochemical Surface Treatment of Titanium** 231
Jukka Lausmaa
9. **Sol-Gel Coatings on Titanium** 267
Laurent-Dominique Piveteau
10. **Physical and Chemical Vapor Deposition and Plasma-assisted Techniques for Coating Titanium** 283
Roger Thull, David Grant

11. **Production of Microfabricated Surfaces and
Their Effects on Cell Behavior** 343
Nicolas A.F. Jaeger, Donald M. Brunette
12. **Thermal Spray Coatings on Titanium** 375
Heiko Gruner
13. **Biochemical Modification of Titanium Surfaces** 417
Shou-Jun Xiao, Gregory Kenausis, Marcus Textor

Part IV Biological Performance

14. **Proteins at Titanium Interfaces** 457
Pentti Tengvall
15. **Principles of Cell Behavior on Titanium Surfaces and
Their Application to Implanted Devices** 485
Donald M. Brunette
16. **Titanium in Soft Tissues** 513
Kajsa-Mia Holgers, Marco Esposito, Mia Källtorp, Peter Thomsen
17. **The Titanium-Bone Cell Interface *In Vitro*:
The Role of the Surface in Promoting Osteointegration** 561
*Barbara D. Boyan, David D. Dean, Christoph H. Lohmann,
David L. Cochran, Victor L. Sylvia, Zvi Schwartz*
18. **The Titanium-Bone Interface *In Vivo*** 587
Cecilia Larsson, Marco Esposito, Hailong Liao, Peter Thomsen
19. **Titanium Ceramics for Cell-Carriers and for Medical Applications** .. 649
*Erich Wintermantel, Karl-Ludwig Eckert, Ning-Ping Huang,
Marcus Textor, Donald M. Brunette*

Part V Medical Applications

20. **Design and Engineering Criteria for Titanium Devices** 673
Beat Gasser
21. **Titanium for Hip and Knee Prostheses** 703
Markus Windler, Ralf Klabunde
22. **Wear of Titanium 6–4 Alloy in Laboratory Tests and
in Retrieved Human Joint Replacements** 747
*Harry A. McKellop, Tord Rostlund,
Edward Ebramzadeh, Augusto Sarmiento*

23. Titanium as Implant Material for Osteosynthesis Applications	771
<i>Stephan M. Perren, Ortrun E.M. Pohler, Erich Schneider</i>	
24. Titanium for Dental Applications (I)	827
<i>Marco Esposito</i>	
25. Titanium for Dental Applications (II): Implants with Roughened Surfaces	875
<i>Daniel Buser</i>	
26. Titanium in Cardiac and Cardiovascular Applications	889
<i>Christian Olin</i>	
27. Titanium in Audiology	909
<i>Kajsa-Mia Holgers, Bo Håkansson</i>	
28. Regulatory Aspects in the Use of Titanium-based Materials for Medical Applications	929
<i>Karl-Gustav Strid</i>	

Part VI Appendices

Appendix A Color Figures	949
Appendix B Biographies of Editors and Authors	971
Appendix C Abbreviations	995
Appendix D World-Wide-Web Sites (URL Addresses)	999
Appendix E Index	1005
Appendix F Spectacles for Stereo-View of Color Figures (App. A)	insert at end of book

Titanium in Medicine

Material Science, Surface Science, Engineering,

Biological Responses and Medical Applications

Brunette, D.M.; Tengvall, P.; Textor, M.; Thomsen, P.

(Eds.)

2001, XIII, 1019 p. In 2 volumes, not available
separately., Hardcover

ISBN: 978-3-540-66936-4
