
Contents

1. Introduction	1
1.1 Prerequisites	1
1.2 Guide to the Book	2
1.3 Background Information	3
2. A First Example	7
2.1 The Example	7
2.2 Generalizations	10
Exercises	10
3. The Discrete Wavelet Transform via Lifting	11
3.1 The First Example Again	11
3.2 Definition of Lifting	13
3.3 A Second Example	17
3.4 Lifting in General	19
3.5 DWT in General	21
3.6 Further Examples	23
Exercises	24
4. Analysis of Synthetic Signals	25
4.1 The Haar Transform	25
4.2 The CDF(2,2) Transform	31
Exercises	33
5. Interpretation	37
5.1 The First Example	37
5.2 Further Results on the Haar Transform	40
5.3 Interpretation of General DWT	45
Exercises	50
6. Two Dimensional Transforms	51
6.1 One Scale DWT in Two Dimensions	51
6.2 Interpretation and Examples	53
6.3 A 2D Transform Based on Lifting	57

Exercises	60
7. Lifting and Filters I	61
7.1 Fourier Series and the z -Transform	61
7.2 Lifting in the z -Transform Representation	64
7.3 Two Channel Filter Banks	69
7.4 Orthonormal and Biorthogonal Bases	74
7.5 Two Channel Filter Banks in the Time Domain	76
7.6 Summary of Results on Lifting and Filters	79
7.7 Properties of Orthogonal Filters	79
7.8 Some Examples	82
Exercises	86
8. Wavelet Packets	87
8.1 From Wavelets to Wavelet Packets	87
8.2 Choice of Basis	90
8.3 Cost Functions	96
Exercises	98
9. The Time-Frequency Plane	99
9.1 Sampling and Frequency Contents	99
9.2 Definition of the Time-Frequency Plane	102
9.3 Wavelet Packets and Frequency Contents	107
9.4 More about Time-Frequency Planes	111
9.5 More Fourier Analysis. The Spectrogram	121
Exercises	125
10. Finite Signals	127
10.1 The Extent of the Boundary Problem	127
10.2 DWT in Matrix Form	130
10.3 Gram-Schmidt Boundary Filters	134
10.4 Periodization	140
10.5 Moment Preserving Boundary Filters	144
Exercises	148
11. Implementation	151
11.1 Introduction to Software	151
11.2 Implementing the Haar Transform Through Lifting	152
11.3 Implementing the DWT Through Lifting	155
11.4 The Real Time Method	160
11.5 Filter Bank Implementation	171
11.6 Construction of Boundary Filters	175
11.7 Wavelet Packet Decomposition	180
11.8 Wavelet Packet Bases	181
11.9 Cost Functions	185

Exercises	185
12. Lifting and Filters II	189
12.1 The Three Basic Representations	189
12.2 From Matrix to Equation Form	190
12.3 From Equation to Filter Form.....	192
12.4 From Filters to Lifting Steps	193
12.5 Factoring Daubechies 4 into Lifting Steps.....	202
12.6 Factorizing Coiflet 12 into Lifting Steps	204
Exercises	209
13. Wavelets in Matlab	211
13.1 Multiresolution Analysis.....	212
13.2 Frequency Properties of the Wavelet Transform	216
13.3 Wavelet Packets Used for Denoising.....	220
13.4 Best Basis Algorithm	225
13.5 Some Commands in Uvi_Wave	230
Exercises	232
14. Applications and Outlook	233
14.1 Applications	233
14.2 Outlook	235
14.3 Some Web Sites	237
References	239
Index	241

Ripples in Mathematics

The Discrete Wavelet Transform

Jensen, A.; Cour-Harbo, A. Ia

2001, IX, 246 p., Softcover

ISBN: 978-3-540-41662-3
