	K. Wächtler, M.C. Dreher-Mansur, and T. Richter	
6.1	Introduction .....	93
6.2	The Glochidium: the Most Common Larva in Naiads .....	93
6.2.1	Early Observations .....	93
6.2.2	Formation, Storage and Release of Glochidia .....	93
6.2.3	Numbers .....	95
6.2.4	Morphology .....	95
6.2.4.1	Shape and Size .....	96
6.2.4.2	Shell .....	97
6.2.4.3	Adductor Muscle .....	97
6.2.4.4	Sensory Hairs .....	97
6.2.4.5	Ciliary Fields .....	99
6.2.4.6	Larval Mantle .....	99
6.2.4.7	Larval Thread .....	99
6.2.5	Interactions with the Host Fish .....	100
6.2.5.1	Suitable Host Fish .....	101
6.2.5.2	Attachment .....	102
6.2.5.3	Cyst Formation .....	102
6.2.5.4	Growth .....	102
6.2.5.5	Metamorphosis .....	102
6.2.5.6	Length of Larval Period .....	103
6.3	The Lasidium: a Larval Type with Two Developmental Options ..	105
6.3.1	Introductory Remarks on the Information Available .....	105
6.3.2	Early Observations .....	106
6.3.3	Formation, Storage and Release of Lasidia .....	106
6.3.4	Numbers .....	106
6.3.5	Morphology .....	106
6.3.5.1	Shape and Size .....	106
6.3.5.2	Body Surface .....	108
6.3.5.3	Adductor Muscle .....	108
6.3.5.4	Adhesive Structures .....	108
6.3.6	Interactions with the Host Fish .....	110
6.3.6.1	Suitable Host Fish .....	110
6.3.6.2	Attachment .....	110
6.3.6.3	Option One: Cyst Formation .....	110
6.3.6.4	Option Two: Transformation into a Second Larval Stage .....	110
6.3.6.4.1	Haustorium Formation in <i>Mutela bourguignati</i> .....	112
6.3.6.4.2	Differentiation of the Young Mussel at the Distal End of a Stalk ..	112
6.4	Direct Development in Naiads .....	112
6.5	From Ectoparasitism to Filter Feeding: the Biology of the Juvenile Mussel. ....	114

6.5.1	Leaving the Host Fish .....	114
6.5.2	Morphology .....	114
6.5.2.1	Initial Size .....	114
6.5.2.2	Shells .....	115
6.5.2.3	Gills .....	115
6.5.2.4	Foot and Locomotion .....	115
6.5.2.5	Mantle .....	115
6.5.2.6	Digestive System .....	117
6.5.3	Ecology .....	117
6.5.3.1	Habitat Selection .....	117
6.5.3.2	Feeding .....	117
6.5.3.3	Growth .....	118
6.6	Comparative Remarks on Naiad Development .....	119
6.7	Summary .....	119
References	.....	119
 7	 <b>Plasticity of Life-History Traits in <i>Unio crassus</i></b> .....	 127
	S. Hochwald	
7.1	Introduction .....	127
7.2	Estimations of Body Growth Parameters .....	127
7.3	Interrelations Among Body Growth Parameters .....	128
7.3.1	Significance of the Body Growth Constant .....	128
7.3.2	Plasticity of Body Growth Parameters in <i>Unio crassus</i> .....	128
7.3.3	Body Growth Constant Versus Life Span .....	129
7.3.4	Body Growth Constant Versus Length Parameters .....	130
7.4	Influence of Environmental Factors .....	131
7.4.1	Water Temperature .....	131
7.4.2	Physicochemical Parameters of Brook Water .....	131
7.5	The Impact of Growth Pattern on Reproduction .....	132
7.5.1	Allometric Constraints on Fertility .....	132
7.5.2	Differences in Spawning Repetitions Among Individuals and Populations .....	133
7.6	Consequences of Life-History Variation for the Survival of Populations .....	137
7.7	Summary .....	138
References	.....	139
 8	 <b>Life-History Data on the Virtually Unknown</b>	
	<i>Margaritifera auricularia</i> .....	143
	R. Araujo and M.A. Ramos	
8.1	Introduction .....	143
8.2	The population of <i>M. auricularia</i> in the Imperial Canal .....	143
8.3	Reproductive Behaviour .....	145
8.4	Two Species Declining Together .....	147
8.5	Conservation of an Endangered Species .....	150
8.6	Summary .....	150

**Part III Populations and Communities**

<b>9</b>	<b>Factors Affecting Naiad Occurrence and Abundance</b> .....	<b>155</b>
	G. Bauer	
9.1	Introduction .....	155
9.2	The Population Level .....	156
9.2.1	Stage- and Age-Specific Mortality .....	156
9.2.1.1	Larval Stage .....	156
9.2.1.2	Parasitic Stage .....	156
9.2.1.3	Juvenile Stage .....	156
9.2.1.4	Adult Stage .....	156
9.2.1.5	Survivorship Curve. ....	157
9.2.2	Age-Specific Fertility .....	159
9.3	The Community Level .....	159
9.3.1	Habitat Characteristics. ....	159
9.3.2	Predation .....	160
9.3.3	Interspecific Competition .....	160
9.4	Summary .....	160
	References .....	161
<b>10</b>	<b>Effect of Muskrat Predation on Naiads</b> .....	<b>163</b>
	E. Zahner-Meike and J.M. Hanson	
10.1	Introduction .....	163
10.1.1	The Study Species .....	163
10.2	Effect of Muskrat Predation on a Population of <i>Margaritifera margaritifera</i> and <i>Pyganodon cataracta</i> in New Brunswick, Canada .....	165
10.2.1	Methods of the Canadian Studies .....	165
10.2.1.1	Predation on <i>Margaritifera margaritifera</i> .....	165
10.2.1.2	Predation on <i>Pyganodon cataracta</i> .....	166
10.2.1.3	Laboratory and Statistical Analyses .....	167
10.2.2	Results of the Studies in Canada .....	167
10.2.2.1	Species and Size Selection .....	167
10.2.2.2	Morphology and Energetic Value .....	168
10.3	Effect of Muskrat Predation on the Populations of Unionid Mussels in Germany .....	169
10.3.1	Methods of the German Studies .....	169
10.3.2	Results of the Studies in Germany .....	170
10.3.2.1	Numbers of Mussels Eaten by Muskrats .....	170
10.3.2.2	Species-Selective Predation .....	171
10.3.2.3	Size-Selective Predation on <i>Unio pictorum</i> .....	171
10.3.2.4	Seasonal Pattern of Muskrat Predation .....	173
10.4	Discussion .....	174
10.4.1	Muskrat Predation Rates and Persistence of Endangered Mussel Populations .....	174
10.4.2	Size- and Species-Selective Predation .....	176
10.4.3	Seasonal Pattern of Muskrat Predation .....	179

10.4.4	Consequences of the Muskrat Invasion of Europe .....	180
10.5	Summary .....	180
References	.....	181
