1	Radiography of the Wrist and Hand	
	V. M. METZ, M. FUCHSJÄGER, S. M. METZ-SCHIMMERL	1
1.1	Introduction	1
1.2	Radiography of the Wrist: The Survey	1
1.2.1	Additional Views of the Wrist	5
1.3	Radiography of the Hand	12
1.4	Soft tissue Evaluation of the Wrist and Hand	20
1.5	Wrist and Hand Measurements	22
2	Conventional Arthrography	
	W. R. OBERMANN	27
2.1	Introduction	27
2.2	Anatomical-Radiological Correlation	27
2.2.1	The Compartments of the Wrist	27
2.2.1.1	The Radiocarpal Compartment	28
2.2.1.2	The Distal Radioulnar Compartment	31
2.2.1.3	The Midcarpal Compartment	31
2.2.1.4	The Pisiform-Triquetral Compartment	32
2.2.1.5	The Common Carpometacarpal Compartment and Intermetacarpal Compartments	32
2.2.1.6	The First Carpometacarpal Compartment	32
2.3	Arthrographic Technique	32
2.3.1	The Radiocarpal Joint	33
2.3.2	The Midcarpal Joint	37
2.3.3	The Distal Radioulnar Joint	37
2.3.4	The Pisotriquetral Joint	38
2.3.5	The Carpometacarpal I Joint	38
2.3.6	The Metacarpophalangeal I Joint	38
2.4	Indications	39
2.4.1	The Radiocarpal Joint	39
2.4.2	The Midcarpal Joint	41
2.4.3	The Distal Radioulnar Joint	41
2.4.4	The Pisotriquetral Joint	42

2.4.5	The Carpometacarpal I Joint and the Metacarpophalangeal I Joint	42
2.5	Conclusions	44
3	Computed Tomography A. CHEVROT, J.-L. DRAPÉ, E. PESSIS, A. FEYDY, D. GODEFROY, A. M. DUPONT	45
3.1	Introduction	45
3.2	Technique	45
3.3	Use of CT in Wrist Pathology	46
3.3.1	Carpal Fractures and Trauma	48
3.3.2	Radioulnar Lesion (Dislocation of the Distal Radioulnar Joint)	51
3.3.3	Ulnar Impaction Syndrome	52
3.3.4	Lesions of the Triangular Fibrocartilage Complex ..	54
3.3.5	Carpal Instability (DISI, VISI)	54
3.3.6	Carpal Tunnel Syndrome, Ulnar Tunnel Syndrome ..	56
3.3.7	Tendinitis, Tenosynovitis	56
3.3.8	Ganglion Cysts	58
3.3.9	Other and Miscellaneous Lesions	59
3.4	Conclusion	61
4	Ultrasound of the Hand O. BOTTINELLI, R. CAMPANI	63
4.1	Introduction	63
4.2	Technique and Method	63
4.3	Anatomical-US Correlations	64
4.4	Abnormal Patterns	66
4.4.1	Tendons	66
4.4.2	Muscles and Subcutaneous Tissue	68
4.4.3	Joints	71
4.4.4	Nerves and Vessels	72
5	Magnetic Resonance Imaging H. M. BONÉL, M. REISER	75
5.1	Introduction	75
5.2	Technical Considerations	75
5.3	Patient Considerations	77
5.3.1	Patients at Risk	77
5.3.2	Patient Preparation	77

5.3.3	Markers	77
5.3.4	Positioning	78
5.3.5	Slice Orientation	78
5.3.5.1	Wrist	78
5.3.5.2	Fingers	79
5.4	Spatial Resolution	79
5.5	Image Contrast and Tissue Composition	80
5.6	Pulse Sequences	81
5.6.1	Spin-Echo Sequence	81
5.6.2	Fast Spin-Echo Sequence	82
5.6.3	Gradient Recalled Echo Sequences	82
5.6.4	Short Tau Inversion Recovery Sequence	83
5.6.5	Fat-Suppressed T1- and T2-Weighted Sequences ...	84
5.7	Artifacts	86
5.7.1	Movement Artifacts	86
5.7.2	Backfolding	86
5.7.3	Chemical Shift	87
5.8	MR Presentation of the Anatomic Structures of the Hand and Wrist	87
5.8.1	Osseous Structures of the Wrist	88
5.8.2	Extensor and Flexor Tendons	89
5.8.3	Triangular Fibrocartilage Complex	90
5.8.4	Intrinsic and Extrinsic Ligaments of the Wrist	92
5.8.5	Carpal Tunnel	93
5.8.6	Neurovascular Structures	95
5.8.7	Fingers and Thumb	95
5.8.8	Synovia	97
5.9	Paramagnetic Contrast	97
5.9.1	Intravenous Application	97
5.9.2	MR Arthrography	97
5.10	Design of the Wrist Protocol	98
5.10.1	Localizer	98
5.10.2	Sample Protocol	99
5.10.3	Reducing the Imaging Time	99
5.10.3.1	Sequence Type	99
5.10.3.2	Rectangular Field-of-View	99
5.10.3.3	Unnecessary Anatomic Coverage	101
5.11	Anatomy of the Wrist	102
6	Dynamic Magnetic Resonance Imaging of the Hand and Wrist	
	R. PASSARIELLO, M. MASTANTUONO, L. SATRAGNO ..	109
6.1	Introduction	109
6.2	Kinematic MRI	109

6.3	Incremental Passive Kinematic MRI	110
6.4	Imaging Protocol	112
6.5	Kinematic Results	114
7	Bone Scintigraphy	
	J. DUTTON, I. FOGELMAN	121
7.1	Introduction	121
7.2	Techniques	121
7.3	Unexplained Hand and Wrist Pain	126
7.4	Fractures	126
7.5	Reflex Sympathetic Dystrophy Syndrome (RSDS) ..	128
7.6	Arthritis	130
7.7	Infection	132
7.8	Other Focal Bone Scan Abnormalities	133
7.8.1	Avascular Necrosis	133
7.8.2	Paget's Disease	134
7.8.3	Bone Tumours	135
7.8.4	Miscellaneous Conditions	136
7.9	Conclusions	136
8	Normal Skeletal Development of the Hand	
	R. R. VAN RIJN, C. VAN KUIJK	139
8.1	Introduction	139
8.2	Pattern of Presentation of Ossification Centres	141
8.3	Scoring Techniques	143
8.3.1	Greulich and Pyle	143
8.3.2	Tanner and Whitehouse	146
8.4	Automated Techniques	147
8.5	Clinical Use and Problems	148
9	Congenital Defects, Malformation Syndromes and Skeletal Dysplasias	
	A. CASTRIOTA SCANDERBEG, B. DALLAPICCOLA	155
9.1	Introduction	155
9.2	Terminology and Classifications	156
9.3	Embryology and Genetics	157
9.4	Etiology	159
9.5	Diagnosis	160
9.6	Normal Variants and Congenital Anomalies, Including Minor Anomalies	161

9.6.1	Epiphyseal Abnormalities	161
9.6.1.1	Cone-Shaped Epiphyses	161
9.6.1.2	Pseudo-epiphyses	163
9.6.1.3	Ivory Epiphyses	163
9.6.2	Normal Variation and Congenital Abnormalities of the Wrist	164
9.6.2.1	Carpal Angle Abnormalities	165
9.6.2.2	Supernumerary Carpal Bones	167
9.6.2.3	Carpal Fusion	167
9.6.2.4	Multicentric Acro-osteolysis	168
9.6.2.5	Acro-osteolysis, Phalangeal Type	168
9.6.3	Shortening or Absence of Components of the Hands	169
9.6.3.1	Brachydactyly	170
9.6.3.2	Brachymetacarpalia	174
9.6.3.3	Radial Ray Deficiency	176
9.6.3.4	Ulnar Ray Deficiency	178
9.6.3.5	Central Ray Deficiency	179
9.6.3.6	Terminal Transverse Defect	181
9.6.4	Other Anomalies, Including Configuration Anomalies, Malsegmentation, Fusion and Axial Deviation	182
9.6.4.1	Preaxial Polydactyly	183
9.6.4.2	Postaxial Polydactyly	184
9.6.4.3	Syndactyly	185
9.6.4.4	Symphalangism	188
9.6.4.5	Clinodactyly	188
9.6.4.6	Camptodactyly	189
9.6.4.7	Angel-Shaped Phalanges	190
9.6.4.8	Macroductyly	191
9.6.4.9	Arachnodactyly	192
9.6.5	Thumb Abnormalities	193
9.6.5.1	Short, Hypoplastic or Absent Thumb	193
9.6.5.2	Broad Thumb	194
9.6.5.3	Triphalangeal Thumb	195
9.6.5.4	Thumb Polydactyly	196
10	The Hand in Endocrine Disorders	
	D. J. THEODOROU, S. J. THEODOROU, D. RESNICK	203
	Introduction	203
10.1	Pituitary Disorders	204
10.1.1	Acromegaly and Gigantism	204
10.1.2	Hypopituitarism	206
10.2	Thyroid Disorders	207
10.2.1	Hyperthyroidism	207

10.2.2	Thyroid Acropachy	208
10.2.3	Hypothyroidism	209
10.3	Parathyroid Disorders and Renal Osteodystrophy ..	210
10.3.1	Hyperparathyroidism	210
10.3.2	Renal Osteodystrophy	217
10.3.2.1	Hyperparathyroidism	218
10.3.2.2	Rickets and Osteomalacia	219
10.3.2.3	Osteoporosis	220
10.3.2.4	Fractures	220
10.3.2.5	Soft Tissue and Vascular Calcification	221
10.3.2.6	Miscellaneous Abnormalities	221
10.3.3	Hemodialysis and Renal Transplantation	222
10.3.3.1	Aluminum Toxicity	222
10.3.3.2	Soft Tissue and Vascular Calcification	222
10.3.3.3	Musculoskeletal Infection	222
10.3.3.4	Carpal Tunnel Syndrome	223
10.3.3.5	Amyloid Deposition	223
10.3.3.6	Abnormalities of the Hand and Wrist Occurring after Peritoneal Dialysis and Renal Transplantation ...	224
10.3.3.7	Differential Diagnosis	224
10.3.4	Hypoparathyroidism	225
10.3.5	Pseudohypoparathyroidism and Pseudopseudohypoparathyroidism	225
11	Bone Densitometry and Osteoporosis at the Hand and Wrist	
	G. GUGLIELMI, M. CAMMISA, A. DE SERIO	231
11.1	Introduction	231
11.1.1	Classification of Osteoporosis	231
11.1.2	Detection of Osteoporosis	232
11.2	Radiological Diagnosis of Osteoporosis	233
11.2.1	Principal Radiographic Findings in Osteopenia and Osteoporosis	234
11.3	Radiogrammetry	235
11.4	Radiographic Absorptiometry	237
11.5	Peripheral X-Ray Absorptiometry	238
11.6	Peripheral Quantitative Computed Tomography ...	239
11.6.1	Assessment of BMD	240
11.6.2	Assessment Beyond BMD	241
11.7	Quantitative Ultrasound	241
11.8	Magnetic Resonance Imaging	243
11.9	Conclusions	244

12	Degenerative Disease of the Hand and Wrist	
	J. M. ELLIOTT, A. J. GRAINGER, H. K. GENANT	251
12.1	Pathological Concepts: Overview	251
12.2	Risk Factors and Pathogenesis	252
12.3	Pathogenesis	253
12.4	Radiological-Pathological Correlation	255
12.4.1	Cartilaginous Changes	255
12.4.2	Subchondral Bone Changes	255
12.4.3	Cysts	256
12.4.4	Osteophyte Formation	257
12.5	Other Articular Structures	258
12.5.1	Osteonecrosis	258
12.5.2	Malalignment	258
12.6	Classification and Assessment	259
12.7	Radiological Features	260
12.7.1	Joints of the Hand	260
12.7.2	Interphalangeal Joints	260
12.7.3	Metacarpophalangeal Joints	262
12.7.4	Erosive Osteoarthritis	262
12.8	Joints of the Wrist	263
12.8.1	Pantrapezial Joints	264
12.8.2	Periscaphoid Joints	265
12.8.3	Ulna-carpal Disease	266
13	Rheumatic Diseases	
	H. IMHOF, F. KAINBERGER, I. SULZBACHER, T. RAND . .	271
13.1	Pathologic Anatomy and Physiology	271
13.1.1	Rheumatoid Arthritis and Related Diseases	273
13.1.1.1	Rheumatoid Arthritis	273
13.1.1.2	Juvenile Rheumatoid Arthritis	277
13.1.1.3	Adult-Onset Still's Disease	277
13.1.1.4	Jaccoud's Arthritis	277
13.1.2	Seronegative Spondyloarthropathies	278
13.1.2.1	Psoriatic Arthropathy	278
13.1.2.2	Reactive Arthritis and Reiter's Syndrome	279
13.1.2.3	Ankylosing Spondylitis (Bechterew's Disease)	279
13.1.3	Collagen Disease	280
13.1.3.1	Systemic Lupus Erythematosus	280
13.1.3.2	Scleroderma and Mixed Connective Tissue Disease . .	281
13.1.3.3	Dermatomyositis/Polymyositis	282
13.1.3.4	Rheumatic Fever	282

13.2	Techniques of Investigation	282
13.2.1	Conventional and Digital Radiography	282
13.2.2	Sonography	283
13.2.3	MRI	285
13.3	Basic Signs in Imaging	285
13.3.1	Basic Signs in Conventional Radiology and CT	285
13.3.1.1	Malalignment	287
13.3.1.2	Soft Tissue Abnormalities	287
13.3.1.3	Joint Space Abnormalities	288
13.3.1.4	Abnormalities of Articular Bones	288
13.3.2	Basic Signs in Sonography	290
13.3.3	Basic Signs in MRI	290
13.3.4	Radiographic Findings after Surgery	294
13.4	Specific Imaging Patterns in Rheumatic Diseases ..	295
13.4.1	Rheumatoid Arthritis and Related Diseases	296
13.4.1.1	Rheumatoid Arthritis	296
13.4.1.2	Juvenile Rheumatoid Arthritis	300
13.4.2	Seronegative Spondyloarthropathies	301
13.4.2.1	Psoriatic Arthropathy	302
13.4.2.2	Reactive Arthritis and Reiter's Syndrome	302
13.4.2.3	Ankylosing Spondylitis	303
13.4.3	Collagen Disease	303
13.4.3.1	Systemic Lupus Erythematosus	303
13.4.3.2	Scleroderma	304
13.4.3.3	Mixed Connective Tissue Disease (MCTD, Sharp Syndrome)	306
13.4.3.4	Rheumatic Fever	307
14	Bone and Soft Tissue Infections	
	A. M. DAVIES	313
14.1	Introduction	313
14.2	Pyogenic Infections	313
14.2.1	Soft Tissue Infection	313
14.2.2	Septic Arthritis	315
14.2.3	Osteomyelitis	316
14.3	Mycobacterial Infections	320
14.3.1	Tuberculosis	320
14.3.2	Leprosy	323
14.4	Treponemal Infections	324
14.4.1	Syphilis	324
14.4.2	Yaws	324
14.5	Fungal Infections	326
14.6	Parasitic Infections	326

14.7	Sarcoidosis	327
14.8	Paget's Disease	327
14.9	Conclusion	328
15	Imaging of Soft Tissue Tumors of the Hand and Wrist L. H. L. DE BEUCKELEER, A. M. DE SCHEPPER, D. DE LA KETHULLE DE RYHOVE, H. NISHIMURA ...	331
15.1	Introduction	331
15.2	Benign Tumoral Lesions	335
15.2.1	Giant Cell Tumor of the Tendon Sheath	335
15.2.2	Hemangioma	336
15.2.3	Lipoma	338
15.2.4	Fibrolipohamartoma	340
15.2.5	Glomus Tumor	341
15.2.6	Neurogenic Tumors	343
15.2.7	Soft Tissue Chondroma	344
15.2.8	Pigmented Villonodular Synovitis	345
15.3	Pseudotumoral Lesions	347
15.3.1	Ganglion Cyst	348
15.3.2	Gout	348
15.3.3	Tuberculosis	350
15.3.4	Sarcoidosis	351
15.3.5	Tenosynovial Osteochondromatosis	351
15.3.6	Accessory Muscles	351
15.3.7	Foreign Body Reaction	352
15.3.8	Epidermal Inclusion Cyst	353
15.3.9	De Quervain's Disease	353
15.3.10	Macrodystrophia Lipomatosa	354
15.3.11	Dupuytren's Contracture	354
15.4	Malignant Tumoral Lesions	355
15.4.1	Synovial Sarcoma	357
15.4.2	Clear Cell Sarcoma	357
15.4.3	Neurofibrosarcoma and Malignant Schwannoma ...	358
15.5	Post-therapeutic Surveillance	358
16	Primary Osseous Tumors of the Hand H.-J. VAN DER WOUDE, J. L. BLOEM	365
16.1	Introduction	365
16.2	Bone Tumors of the Hand	366
16.2.1	Incidence	366
16.2.2	Malignant Primary Bone Tumors of the Hand	366
16.2.2.1	Chondrosarcoma	366

16.2.2.2	Other Malignant Bone Tumors of the Hand	368
16.2.3	Benign Primary Bone Tumors of the Hand	368
16.2.3.1	Enchondroma	368
16.2.3.2	Juxtacortical Chondroma	371
16.2.3.3	Osteochondroma	371
16.2.3.4	Osteoid Osteoma	371
16.2.3.5	Giant Cell Tumor	372
16.2.3.6	Aneurysmal Bone Cyst	373
16.2.4	Tumors or Tumor-Like Lesions Related to the Phalanges of the Hand	373
16.2.4.1	Giant Cell Reaction of Bone	373
16.2.4.2	Epidermoid Cyst	373
16.2.4.3	Glomus Tumor	374
16.2.5	Other (Incidental) Benign Bone Tumors or Tumor-Like Lesions of the Hand	375
16.3	Concluding Remarks	378
17	Instability of the Wrist	
	M. MAAS, M. P. J. F. RITT	381
17.1	Introduction	381
17.2	Definition and Classification	382
17.3	Imaging	383
17.4	Carpal Instability	383
17.4.1	Location of Instability	383
17.4.1.1	Carpal Instability Dissociative (CID)	384
17.4.1.2	Carpal Instability Nondissociative (CIND)	384
17.4.1.3	CIC: Combined or Complex CID/CIND Instability	384
17.4.1.4	Adaptive Carpus or Pseudocarpal Instability	384
17.4.1.5	Rotational Instability	385
17.4.2	Pattern of Instability	385
17.4.2.1	Dorsal Intercalated Segment Instability (DISI)	385
17.4.2.2	Volar (=Palmar) Intercalated Segment Instability (VISI)	386
17.4.2.3	Ulnar Translation (UT)	386
17.4.2.4	Dorsal Translation (DT)	386
17.4.2.5	Proximal Migration (PM)	386
17.4.3	Degree of Instability	386
17.5	Frequently Encountered Pathology	386
17.5.1	Scapholunate (SL) Dissociation	387
17.5.1.1	Clinical Presentation	387
17.5.1.2	Physical Examination	387
17.5.1.3	Radiologic Findings	387
17.5.1.4	Surgery	388

17.5.2	Scaphoid Non-union	388
17.5.3	Lunotriquetral (LT) Dissociation	388
17.5.3.1	Clinical Presentation	388
17.5.3.2	Radiologic Findings	390
17.5.3.3	Surgery	390
17.5.4	Midcarpal Instability	390
17.5.4.1	Clinical	391
17.5.4.2	Radiology	391
17.5.4.3	Surgery	391
17.5.5	Carpometacarpal Instability	391
17.5.6	Radioulnar Instability	392
17.5.6.1	Clinical and Radiographic Evaluation	392
17.5.7	Classification of Wrist Instability	393
18	Trauma of the Hand and Wrist

20.1	Introduction	441
20.2	Anatomy	441
20.3	Imaging and Interventional Techniques	443
20.3.1	Arteriography	443
20.3.2	Venography	443
20.3.3	Fibrinolysis	444
20.3.4	Embolization	444
20.3.5	Angioplasty	445
20.4	Clinical Applications of Angiographic Techniques ..	446
20.4.1	Emergency Procedures	446
20.4.1.1	Acute Ischemia	446
20.4.1.2	Hemorrhage	447
20.4.2	Elective Procedures	449
20.4.2.1	Chronic Ischemia	449
20.4.2.2	Preoperative Vascular Map	451
20.5	Conclusions	452

21 **Osteonecrosis of the Carpal Bones** P. G. BRACKE, J. E. VANDEVENNE, L. F. COENEN, P. K. LANG

455

21.1	Introduction	455
21.2	Overview and Definitions	455
21.3	Pathophysiology	456
21.3.1	Reversible Phase	457
21.3.2	Irreversible Phase	457

21.4	Imaging of Osteonecrosis	458
21.5	Specific Locations of Osteonecrosis	460
21.5.1	Scaphoid Bone (Preiser Disease)	460
21.5.2	Lunate Bone (Kienböck Disease)	466
21.5.2.1	Stage 1	467
21.5.2.2	Stage 2	468
21.5.2.3	Stage 3	471
21.5.2.4	Stage 4	471
21.5.2.5	Treatment	471
21.5.3	Hamulus of the Hamate Bone	475
21.5.4	Capitate	478
22	Ungual and Subungual Disease	
	J.-L. DRAPÉ, A. CHEVROT, J. BITTOUN	481
22.1	Introduction	481
22.2	Imaging Modalities	481
22.2.1	Plain Films	481
22.2.2	Ultrasonography	484
22.2.3	Xeroradiography	485
22.2.4	Angiography	485
22.2.5	Computed Tomography	486
22.2.6	Magnetic Resonance Imaging	486
22.2.6.1	Technique	486
22.2.6.2	MRI of the Normal Nail Unit	487
22.2.6.3	Clinical Applications	490
22.3	Conclusion	502
	Subject Index	507
	List of Contributors	515

Fundamentals of Hand and Wrist Imaging
Guglielmi, G.; Kuijk, C. van; Genant, H.K. (Eds.)
2001, XXI, 518 p., Hardcover
ISBN: 978-3-540-67854-0
