

Contents

<i>Preface</i>	v
The Editors	
1. BASIC ISSUES	
<i>Decision Making under Uncertainty with Ordinal Linguistic Data</i>	3
T. Whalen	
<i>Modeling Risk in Sequential Decision Making with Interval Probabilities</i>	17
K.J. Engemann, H.E. Miller and R.R. Yager	
<i>Fuzzy Risk Analysis Vs. Probability Risk Analysis</i>	31
Huang Chongfu	
<i>Soft Methods in Hypotheses Testing</i>	55
P. Grzegorzewski and O. Hryniewicz	
<i>Extensions and Applications of Evidence Theory</i>	73
D. Cai	
2. ANALYSIS OF EVIDENCE AND DATA	
<i>Data Mining Based on Evidence Theory</i>	97
D. Cai	
<i>Interesting Rough Lattice-based Implication Rules Discovery</i>	121
Y. Zhao, J. Shi, D. Ruan and P. Shi	

<i>Concept Lattice-based Approach for Incrementally Association Mining</i> Y. Zhao, D. Ruan and P. Shi	133
<i>Neuro-Fuzzy Modelling of Time Series</i> J. Zhang and A. Knoll	140
<i>A Fast Logically-Complete Preferential Reasoner for the Assessment of Critical Situations</i> É. Grégoire	155
<i>Artificial Intelligence Classifiers and Their Social Impact</i> J. C. Aguado Chao	170

3. RISK IN DECISION SUPPORT AND CONTROL SYSTEMS

<i>Analysis Support System of Human Reliability with Linguistic Expressions</i> T. Onisawa and A. Ohmori	197
<i>A Cognitive and Formal Terminology for Descriptive Parameters in Concurrent Real-Time Distributed Software Systems</i> A. Jalashgar	229
<i>Safety Licensable and High Speed Programmable Digital Controllers Providing any Required Control Behaviour</i> P. Vogrin and W.A. Halang	249

4. RISK IN ENERGY AND ENVIRONMENTAL SYSTEMS

<i>Fuzzy Price Forecasting and Energy Contracting in Competitive Electricity Markets</i> W. Mielczarski and G. Michalik-Mielczarska	275
<i>System Modelling in Monitoring and Supervising System of Distributed Energy and Heat Supply Complex</i> J. Bila and T. Brandejsky	321

<i>Evidential Reasoning in Nuclear Waste Management</i>	337
A. Tocatlidou	
<i>A Fuzzy Model of Heavy Metal Loadings in Marine Environment</i>	355
L.I. Kuncheva, J. Wrench, L.C. Jain and A. Al.-Zaidan	

5. RISK IN FINANCE

<i>Capital Budgeting Techniques Using Discounted Fuzzy Cash Flows</i>	375
C. Kahraman	
<i>Survival Risk and Project Evaluation</i>	397
F. Beccacece, P. Gallo and L. Peccati	
<i>Coherent Risk Measures and Linear Programming</i>	410
S. Benati	
<i>Fuzzy Risk Management for Project Financing</i>	432
P. Mazzoleni	
<i>Fuzzy Logic Based Risk Management in Financial Intermediation</i>	447
K. Korolev, K.D. Leifert and H. Rommelfanger	
<i>Bank Creditworthiness Using Fuzzy Systems: A Comparison with a Classical Analysis Approach</i>	472
G. Facchinetti, S. Bordoni and G. Mastroleo	
<i>Risk of Options – Impact of Volatility Parameter</i>	487
K. Jajuga and K. Kuziak	
<i>Managing Portfolio of Options</i>	501
D. Gatarek	

Soft Computing for Risk Evaluation and Management
Applications in Technology, Environment and Finance

Ruan, D.; Fedrizzi, M. (Eds.)

2001, IX, 514 p., Hardcover

ISBN: 978-3-7908-1406-4
