

Contents

Interval Arithmetic and Interval Analysis: An Introduction.....	1
<i>J.G. Rokne</i>	
Interval and Ellipsoidal Uncertainty Models.....	23
<i>A. Bargiela</i>	
Nonlinear Bounded-Error Parameter Estimation Using Interval Computation....	58
<i>L. Jaulin, E. Walter</i>	
Random Sets: Theory and Applications.....	72
<i>J. Nuñez-Garcia, O. Wolkenhauer</i>	
Rough Sets and Boolean Reasoning.....	95
<i>A. Skowron</i>	
Granulation and Nearest Neighborhoods: Rough Set Approach.....	125
<i>T. Y. Lin</i>	
An Inquiry into the Theory of Defuzzification.....	143
<i>S. Roychowdhury</i>	
Fuzzy Partitioning Methods.....	163
<i>C. Marsala</i>	
A Coding Method to Handle Linguistic Variables.....	187
<i>A. Bailon, A. Blanco, M. Delgado, W. Fajardo</i>	
A Formal Theory of Fuzzy Natural Language Quantification and its Role in Granular Computing.....	215
<i>I. Glöckner, A. Knoll</i>	
Granularity and Specificity in Fuzzy Rule-Based Systems.....	257
<i>T. Sudkamp</i>	
Granular Computing in Neural Networks.....	275
<i>S. Dick, A. Kandel</i>	
Fuzzy Clustering for Multiple-Model Approaches in System Identification and Control.....	306
<i>R. Babuška, M. Oosterom</i>	

Information Granulation in Automated Modeling.....	324
<i>M. Easley, E. Bradley</i>	
Optical Music Recognition: the Case of Granular Computing.....	341
<i>W. Homenda</i>	
Modeling MPEG VBR Video Traffic Using Type-2 Fuzzy Logic Systems.....	367
<i>Q. Liang, J. M. Mendel</i>	
Induction of Rules about Complications with the Use of Rough Sets.....	384
<i>S. Tsumoto</i>

Granular Computing

An Emerging Paradigm

Pedrycz, W. (Ed.)

2001, VI, 398 p., Hardcover

ISBN: 978-3-7908-1387-6

A product of Physica-Verlag Heidelberg
