

TABLE OF CONTENTS

Chapter 1: Economics and Ecological Policy	1
1 Economics and the problem of sustainability	1
2 Which course to take?	4
2.1 Economists' Political Role	4
2.2 Economic Practice within a Political Context	9
3 An ecologically successful economics	12
3.1 Two Standards for an Ecologically Successful Economics	12
3.2 A Confrontation between David Pearce and Daniel Bromley	13
4 Outline of the book	13
5 Conclusion	14
 Chapter 2: The Economic and the Political Sphere	17
1 Economic and political theories as conceptual constructs	18
1.1 Weber: Social Sciences as Ideal-Typical Conceptual Constructs	18
1.2 Neurath: Sciences as Historically Contingent Conceptual Constructs	21
1.3 Conclusion	24
2 Four conceptual constructs of the economic sphere	25
3 Buchanan's political theory	29
3.1 Public Choice Theory as an Extension of Economics	29
3.2 Political actors as <i>Homines Oeconomici</i>	31
3.3 More Markets, Less Government	32
3.4 Processes as the Touch Stone of Politics	32
3.5 Conclusion	34
4 Deliberative democracy	34
4.1 Economic <i>versus</i> Political Decision Units	35
4.2 " <i>Homines Oeconomici</i> " <i>versus</i> " <i>Homines Politici</i> "	35
4.3 "Goods and Services" <i>versus</i> "Laws"	37
4.4 Economic <i>versus</i> Political Institutions	39
4.5 Conclusions	40
5 Politics and sustainability	42
6 Conclusions	43
 Chapter 3: The institutional and ecological dimension of an economy	47
1 Institutions	48
1.1 Institutions as the Symbolic Dimension of Action	48
1.2 Institutions as Historical Entities	52
1.3 Institutions as Simultaneously Restricting and Enabling Entities	53
1.4 Laws as "Public Facts"	55

TABLE OF CONTENTS

1.5	Summary	56
2	Institutional organisation and ecological performance of an economy	57
2.1	Economic Institutions	57
2.1.1	Institutions Defining Economic Decision Units	57
2.1.2	Institutions Conditioning Economic Rationality	57
2.1.3	Institutions Defining Economic Goods and Services	61
2.1.4	Summary	63
2.2	The Institutional Whole of an Economy.....	64
2.2.1	Economy's Ecological Performance.....	65
2.2.2	Relevance of the "Institutional Whole"	68
2.2.3	Meaning of the "Institutional Whole"	70
2.2.4	Conclusion.....	76
3	Conclusion.....	77
Chapter 4: Four norms for a politically successful economics		79
1	Objective	80
2	Descriptive and explanatory	82
2.1	Weber: Pure Economics as a Political Toolbox.....	82
2.1.1	Pure Economics: Technically Applicable.....	83
2.1.2	Pure Economics: Theoretically, Empirically or Practically Valid? ..	86
2.1.3	Two Objections	88
2.1.4	A Historically Contingent Multiplicity of Economic Paradigms.....	89
2.1.5	Conclusion.....	91
2.2	Neurath: Economic Theories as Scientific Utopias	91
2.2.1	The Scientific Meaning of Prediction.....	92
2.2.2	Pseudo-Rationalism	93
2.2.3	Unified Science	94
2.2.4	The Political Relevance of Scientific Utopias	96
2.2.5	Conclusion.....	99
2.3	Economic Theories as Political Muses	100
3	Impartial knowledge.....	102
4	Conclusion.....	104
Chapter 5: A reconstruction of Pearce's economics		107
1	Environmental economics as a "materials balance model"	108
1.1	An Ecological Input-Output Analysis	108
1.2	A Materials Balance Model	110
1.3	Conclusion.....	112
2	Environmental economics as a kind of welfare economics	112
2.1	A Neo-Classical Approach	113
2.2	Environmental Economics in the Service of "Sustainable Development"	116
2.3	Conclusion.....	121
3	Environmental politics.....	122
3.1	The Ambiguity of the Concept "Allocative Efficiency"	122

TABLE OF CONTENTS

3.2	Economic Institutions as a Matter of Economic Calculations	124
3.3	Adding Economic Institutions: Two Problems of “Sustainability”	126
3.4	Conclusion	128
4	Conclusion	129
 Chapter 6: The nature of Pearce’s economics		131
1	Non-neutral objectivity	131
1.1	Objectivity as Practically Valid Non-Neutrality	132
1.2	Objectivity as Non-Neutral Empirical Validity	133
2	Prescription rather than non-neutral description	137
3	Prediction rather than explanation	140
4	Partiality	141
5	Conclusion	144
 Chapter 7: A reconstruction of Bromley’s economics		147
1	An institutional approach	148
2	Economic institutions	150
2.1	The Economic Sphere	150
2.2	Property	152
2.2.1	Property Rights	152
2.2.2	Property Regimes	154
2.3	Conclusion	157
3	The relationship between an economy and its ecological environment	158
3.1	Nominal versus Real Boundaries	159
3.2	Externalities	160
3.3	Conclusion	165
4	The economic and the political sphere	165
4.1	Institutional Transactions: Economic or Political Activities	165
4.2	The “Rationality” of Institutional Change	167
4.3	Sustainability	172
4.4	Conclusion	174
5	Conclusion	175
 Chapter 8: The nature of Bromley’s economics		177
1	Non-neutral	177
1.1	Propagandistic versus Paradigmatic Non-Neutrality	177
1.2	A Normative Analysis of Institutional Change	178
1.3	Four Motives for Institutional Change	179
2	Objective	184
3	Descriptive	187
4	Explanatory	189
5	(Im)partial	192
6	Conclusion	193

TABLE OF CONTENTS

Chapter 9: Conclusions	197
1 Norms for an ecologically successful economics	198
1.1 The Problem of Sustainability	198
1.2 Politics	199
1.3 Institutions	200
1.4 The Content of an Ecologically Successful Economics	202
1.5 The Nature of an Ecologically Successful Economics	203
2 Mutually testing norms and economic paradigms	205
2.1 The Problem of Sustainability	205
2.2 Politics	208
2.3 The Content of an Ecologically Successful Economics	208
2.4 The Nature of an Ecologically Successful Economics	212
3 Conclusion.....	215
