

# Table of Contents

General Introduction .....	1
----------------------------	---

## Chapter 1

### APPROACHING LABWORK: FRAMES AND TOOLS

Introduction .....	7
--------------------	---

*Robin Millar, Andrée Tiberghien and Jean-François Le Maréchal*

Varieties of Labwork: A Way of Profiling Labwork Tasks .....	9
--	---

*Dimitris Psillos and Hans Niedderer*

Issues and Questions Regarding the Effectiveness of Labwork.....	21
--	----

*Hans Niedderer, Stefan v. Aufschnaiter, Andrée Tiberghien, Christian Buty, Kerstin Haller, Lorenz Hücke, Florian Sander, Hans Fischer*

Talking Physics in Labwork Contexts - A Category Based Analysis of Videotapes.....	31
--	----

*John Leach*

Students' Understanding of the Nature of Science and its Influence on Labwork .....	41
---	----

## Chapter 2

### STANDARD LABWORK BASED ON HANDS-ON EXPERIMENTS

Introduction .....	49
--------------------	----

*Karine Bécu-Robinault*

Modelling Activities of Students during a Traditional Labwork .....	51
---	----

*Michel Beney and Marie-Geneviève Séré*

Students' Intellectual Activities during Standard Labwork at Undergraduate Level.....	65
---	----

*Petros Kariotoglou*

A Laboratory-Based Teaching Learning Sequence on Fluids: Developing Primary Student Teachers' Conceptual and Procedural Knowledge.....	79
--	----

*Heike Theyßen, Dieter Schumacher, Stefan v. Aufschnaiter*

Development and Evaluation of a Laboratory Course in Physics for Medical Students .....	91
---	----

*Milena Bandiera*

The Biology Textbook as a Source of Ideas about Scientific Knowledge and Experimental Activity .....	105
--	-----

### Chapter 3

#### **OPEN-ENDED LABWORK**

Introduction .....	119
--------------------	-----

*Alain Guillon and Marie-Geneviève Séré*

The Role of Epistemological Information in open-ended Investigative Labwork .....	121
---	-----

*Jenny Lewis*

The Effectiveness of Mini-Projects as a Preparation for open-ended Investigations .....	139
---	-----

*Jim Ryder*

Data Interpretation Activities and Students' Views of the Epistemology of Science during a University Earth Sciences Field Study Course.....	151
--	-----

### Chapter 4

#### **LABWORK AND DATA HANDLING**

Introduction .....	163
--------------------	-----

*John Leach*

The Use of secondary Data in Teaching about Data Analysis in a First Year Undergraduate Biochemistry Course .....	165
---	-----

*Dimitris Evangelinos, Dimitris Psillos and Odysseas Valassiades*

An Investigation of Teaching and Learning about Measurement Data and their Treatment in the Introductory Physics Laboratory .....	179
---	-----

Chapter 5

**LABWORK BASED ON INTEGRATED USE OF NEW  
INFORMATION TECHNOLOGY**

Introduction ..... 191

*Garabet Bisdikian and Dimitris Psillos*

Enhancing the Linking of Theoretical Knowledge to Physical Phenomena  
by Real-Time Graphing ..... 193

*Lorenz Hucke and Hans E. Fischer*

The Link of Theory and Practice in Traditional and in Computer-Based  
University Laboratory Experiments ..... 205

*Florian Sander, Horst Schecker and Hans Niedderer*

Computer Tools in the Lab –  
Effects Linking Theory and Experiment ..... 219

*Christian Buty*

Modelling in Geometrical Optics Using a Microcomputer ..... 231

*Alexandros Barbas and Dimitris Psillos*

Evolution of Students' Reasoning about Microscopic Processes in  
Electrostatics under the Influence of Interactive Simulations ..... 243

**EPILOGUE**

*Marie-Geneviève Séré*

Towards Targeted Labwork..... 255

Authors ..... 260

Index ..... 266

Teaching and Learning in the Science Laboratory

Psillos, D.; Niedderer, H. (Eds.)

2002, X, 270 p., Hardcover

ISBN: 978-1-4020-1018-7
