SECTION 1 THE VISION

John S. Silva, Marion J. Ball, and Judith V. Douglas
Section Editors

INTRODUCTION	Envisioning a National Cancer Information and Knowledge Environment 3 <i>John S. Silva</i>
CHAPTER 1	Translating Cancer Research into Cancer Care: Final Report of the Long Range Planning Committee 5 <i>Long Range Planning Committee</i>
CHAPTER 2	Visions of the Future 17 <i>Long Range Planning Committee</i>
CHAPTER 3	Clinical Trials in Practice 33 <i>L. Michael Glodé</i>

SECTION 2 THE INFRASTRUCTURE

William L. Scherlis

Section Editor

-
- | | |
|--------------|---|
| INTRODUCTION | Developing and Improving the Informatics Infrastructure to Support Clinical Research 47
<i>William L. Scherlis</i> |
| CHAPTER 4 | Cancer Informatics: Lessons from the World of e-Business 51
<i>Jay M. Tenenbaum</i> |
| CHAPTER 5 | Security and Privacy 70
<i>Clifford Neuman</i> |
| CHAPTER 6 | Digital Libraries and Scholarly Communication 79
<i>Ronald L. Larsen and Jean Scholtz</i> |

SECTION 3 STANDARDS AND VOCABULARY

Christopher G. Chute and Curtis P. Langlotz

Section Editors

-
- | | |
|--------------|---|
| INTRODUCTION | The Spectrum of Existing and Emerging Health Data Standards: Their Relevance and Application to Cancer Information 99
<i>Christopher G. Chute and Curtis P. Langlotz</i> |
| CHAPTER 7 | Cancer Data, Information Standards, and Convergent Efforts 102
<i>Christopher G. Chute</i> |
| CHAPTER 8 | Toward Terminology as Infrastructure 106
<i>Mark S. Tuttle, Keith E. Campbell, Kevin D. Keck, and John S. Carter</i> |
| CHAPTER 9 | Clinical Terminologies for Data Analysis and Structured Data Entry 122
<i>Walter Sujansky</i> |
| CHAPTER 10 | Information Standards Within the National Cancer Institute 135
<i>Francis W. Hartel and Sherri de Coronado</i> |

CHAPTER 11	CDE Development Model for Chest CT Screening for Lung Cancer 157 <i>Curtis P. Langlotz</i>
CHAPTER 12	Pathology Standards in Cancer Informatics 166 <i>Kent A. Spackman and M. Elizabeth Hammond</i>
CHAPTER 13	Clinical Information Interchange with Health Level Seven 176 <i>Stanley M. Huff, W. Ed Hammond, and Warren G. Williams</i>
CHAPTER 14	The Health Level Seven Reference Information Model 194 <i>Abdul-Malik Shakir</i>
CHAPTER 15	HIPAA Administrative Simplification Standards: Provisions of the Final Privacy Rule Related to Clinical Trials 206 <i>William R. Braithwaite</i>
CHAPTER 16	Toward a Shared Representation of Clinical Trial Protocols: Application of the GLIF Guideline Modeling Framework 212 <i>Robert A. Greenes, Samson Tu, Aziz A. Boxwala, Mor Peleg, and Edward H. Shortliffe</i>
CHAPTER 17	Informatics for Cancer Prevention and Control 229 <i>Robert A. Hiatt</i>

SECTION 4 THEORY INTO PRACTICE

Joyce C. Niland
Section Editor

INTRODUCTION	Moving Toward the Vision: Putting Applications in Place 245 <i>Joyce C. Niland</i>
CHAPTER 18	Selection of Oncology Information Systems 250 <i>Mitchell Morris</i>
CHAPTER 19	Clinical State Diagrams and Informatics Tools for Clinical Trial Protocols 270 <i>John H. Gennari</i>
CHAPTER 20	Support for the Cancer Patient: An Internet Model 280 <i>Howard S. Goldberg and Charles Safran</i>
CHAPTER 21	Increasing Clinical Trial Awareness and Accrual Via the Web 293 <i>Joyce C. Niland and Douglas C. Stahl</i>

CHAPTER 22	<i>ClinicalTrials.gov: Linking Patients to Medical Research</i> 302 <i>Alexa T. McCray</i>
CHAPTER 23	The National Cancer Institute's net-Trials™ 308 <i>Dianne M. Reeves and Douglas Hageman</i>
